

Appendix A

Bicycle and Pedestrian Projects

Of the Long-Range Bicycle and Pedestrian Plan
For the National Capital Region

This appendix contains a complete list of the projects in the Bicycle and Pedestrian Plan for the National Capital Region. Below is a guide to the printed project list. Appendix B contains a data dictionary for the electronic database, which contains more information than this printed list, as well as a sample data entry form.

PROJECT LIST DATA DICTIONARY																	
Field	Explanation																
Line Number	Short ID number used to label projects on the maps																
Agency Project ID	The sponsoring agency's project identifying number																
Project Name	Descriptive name provided by the sponsoring agency																
From	Project Limits																
To	Project Limits																
Length (Miles)	Length of the project from start to finish in miles. Example: if a project consists of four miles of road with a continuous bike lane and sidewalk, the project length is four miles. For projects that have no length, such as bicycle racks, the listed length is zero.																
Responsible Agencies	Agencies responsible for implementing the project or otherwise involved																
Bike Lane	Bike lanes are striped lanes at least 4' wide in the public right-of-way, marked for the exclusive use of bicyclists																
Multi-Use Path	A paved or hard-surface path separated from traffic, officially designated for bicycles and other non-motorized users. Should be at least 8' wide.																
Sidewalk	Sidewalks are usually less than 8' wide, and are not designed for bicyclists.																
Type of Spot/Area Improvement	For non-linear projects. The pull-down menu gives the following options: <table border="0" style="margin-left: 40px;"> <thead> <tr> <th style="text-align: left;">Type of Improvement</th> <th style="text-align: left;">Code Letter</th> </tr> </thead> <tbody> <tr> <td>1. 3. Traffic Calming	TC																
4. Streetscape/Pedestrian Improvements	S																
5. Bicycle Parking	PK																
6. Bicycle Route Marking	BR																
7. Other	O																
In CLRP	Project is in the Financially Constrained Long-Range Transportation Plan for the National Capital Region, and therefore is officially considered to have funding available to support project completion.																
In TIP	Project is in the most recent National Capital Region Transportation Improvement Program with specific funding amounts identified for program completion.

	<u>Code Letter</u>												
1. Fully Funded ¹	F												
2. Partially Funded	P												
3. Unfunded	U												
4. Under Construction	UC												
5. Complete	C												
Cost	<p>In thousands of dollars. As many projects in the plan may not be built for many years, and have not been fully scoped, this can be a very rough estimate. If a project is part of a larger project the total project cost is <i>not</i> listed, only that portion of the cost which is attributable to the bicycle or pedestrian facility. Use of a rule of thumb for such estimates was acceptable, i.e. 3% of total project cost. Many projects do not have a cost estimate available.</p>												

¹ “Funded” indicates that the sponsoring agency has considered funding for completion of this project to be reasonably available within projected funding sources. “Unfunded” indicates, that while the project has been identified, there is no projected funding to support its completion at this time.
