

# GWP Request – Transit Agency Survey

## Transportation-Employer COVID-19 Recovery

- GWP would work with employers to map reopening plans and number of employees expected to return every two weeks
- Would share with transit agencies, and ask for following information in return (every two weeks):
  - (1) Previous two-week period ridership demand vs safe carrying capacity;
  - (2) areas/transit lines expected to surge above safe capacity over the next two weeks;
  - (3) tips for employers and employees to reduce health risk.
