Built Environment & Energy Advisory Committee

Metropolitan Washington Council of Governments
Department of Environmental Programs

November 2014

Todd C. Lukesh, LEED AP, Assoc. AIA, CGBP, GPR Vice President, IES West Coast

Our History

Global thought leaders in quantifying and qualifying sustainability and efficiency through measurement, simulation and analytics. We enhance our customers' triple bottom line by reducing energy costs and carbon emissions of their buildings and helping them record their achievements. Our unique HUB process is transforming building operation by providing the best decision-support information for our clients.

- IES founded in 1994 (20-year old firm)
- Headquarter office in Glasgow, Scotland
- Global offices: Dublin, Boston, Atlanta,
 Pune, Melbourne & Vancouver
- Global Business Development teams: San Francisco, Malaysia & Minneapolis
- International Sustainability Consultancy Services including LEED, BREEAM, GSAS & Estidama
- Our simulation technology is used throughout the world by many of the leading Architects, Engineers and Contractors to quantify, optimize and verify low energy and sustainable buildings.
- VE software used in over 140 countries

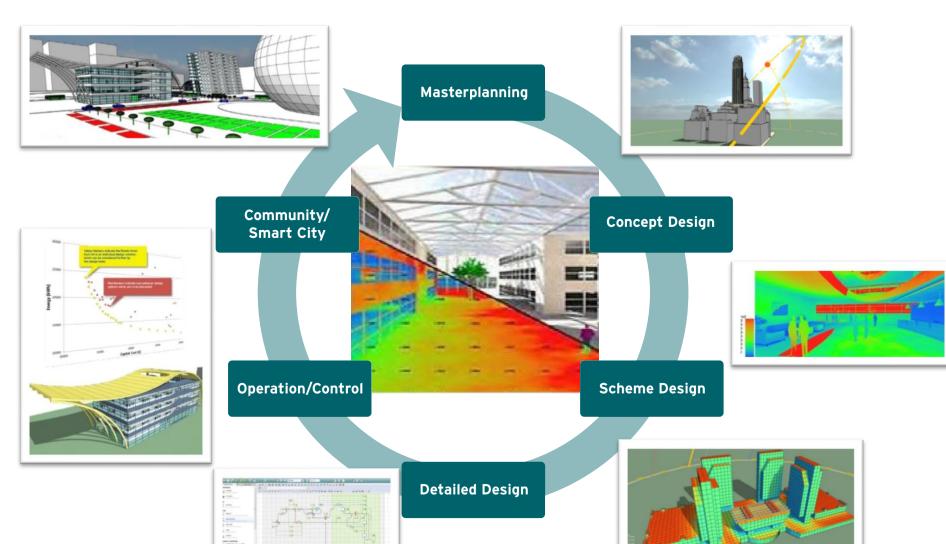

A Global IES Network

The Smart Community Lifecycle (SCL)

Sustainability for the Building Lifecycle

EARLY STAGE III DETAILED DESIGN

EPCs/BERs

- Unique configuration of analysis tools
- Technology proven worldwide
- Single 3D model approach

Research & Development

Projects Overview

Scan/Ci²/SBC/Ops

VERYSchool

Metering & predicting energy etc. for schools

Real-time calibration. optimisation & control

REEMAIN

THERM 2: metering, analysis retrofit actions

REESSEPE

Retrofit + SCAN

EASEE

Retrofit analysis of large numbers of buildings

UMBRELLA

Retrofit building simulation Har-Win & optimisation

Retrofit

Energy In Time

Metering of collections of buildings

aiUrban

Virtual Power Plant + electrical grid/distribution

CityEngine + VE hybrid product/analysis

FASUDIR

PCM modelling of new

glazing material

Retrofit on large scale of buildings

CitySUMs

Sustainable urban metrics (SketchUp plugin)

Masterplanning

Smart City Lifecycle

Glasgow FutureCities Simulation & visualisation of city-wide buildings

MIRIAM

City information models

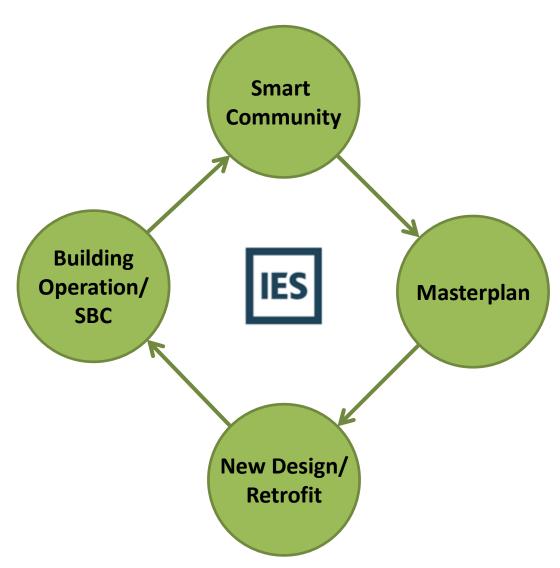

FORTISSIMO

Online building simulation & optimisation

= uses Web-based sim/calcs

Smart Community Lifecycle (SCL)

Masterplanning & EcoDistricts

Model Build

Masterplanning & EcoDistricts

Model Visualization

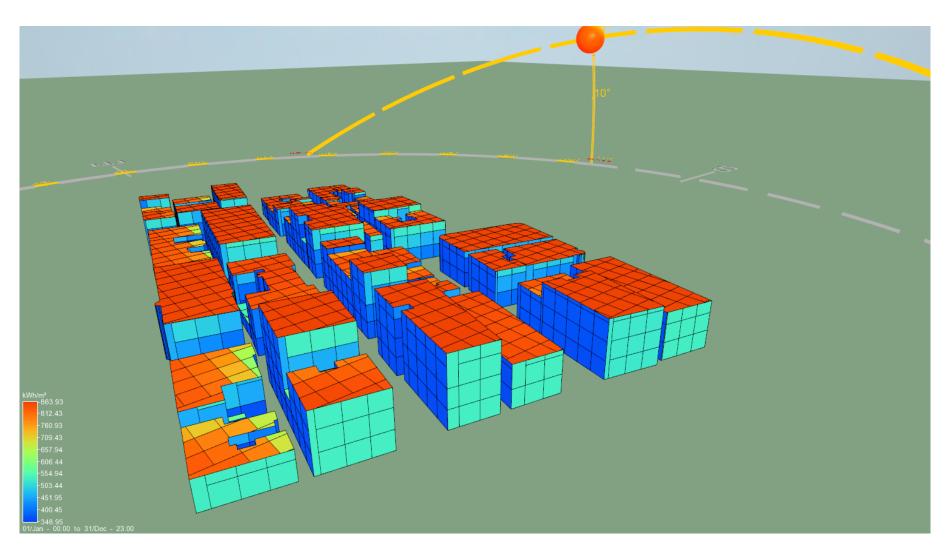

City Masterplanning

Solar Intensity

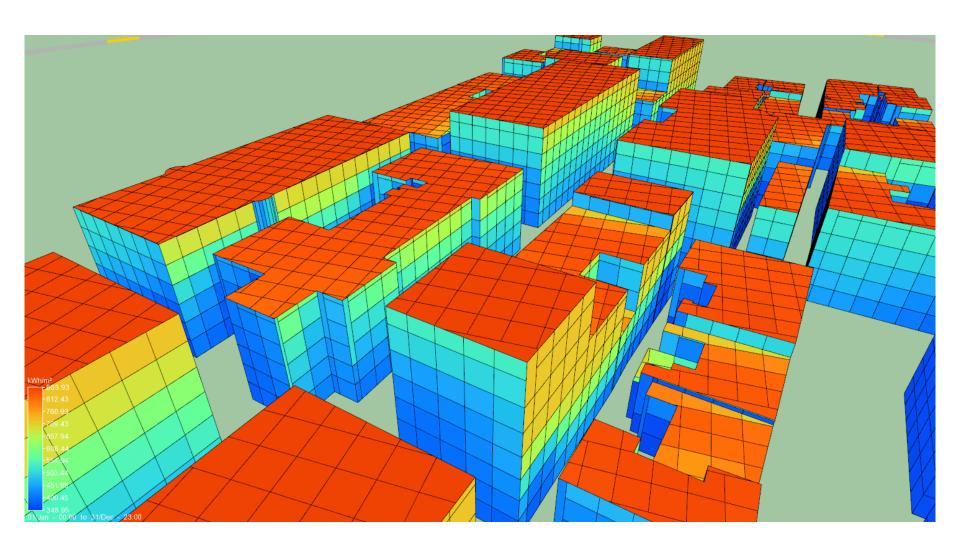

City Masterplanning

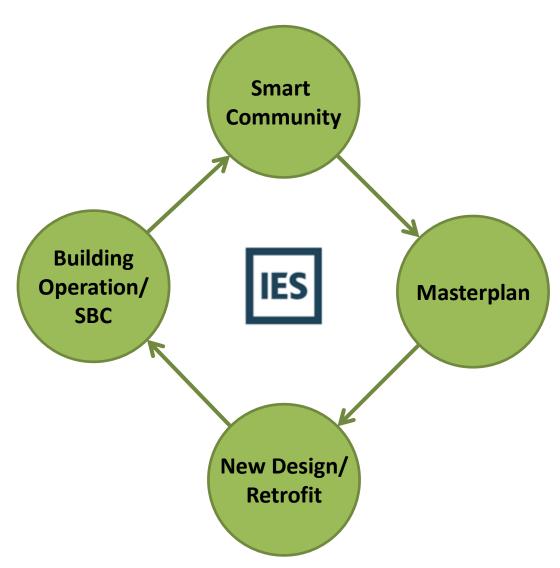

Solar Intensity
