MAP-21 - Next Steps in Regional Coordination

- Initial coordination discussions with State DOTs and Public Transportation Providers (other agencies to follow):
 - Each agency asked to identify:
 - Overall coordinating representative.
 - Subject matter expert representative for each category/measure (e.g., highway safety).
 - Share information on known and proposed performance provisions and regulatory requirements for each category/measure.
 - Coordinate on common elements across categories/measures (e.g., data for MPO planning area).
- Subsequent combined workshop to discuss MAP-21 performance provisions, with FHWA/FTA and consultants.
