Adjunct Member

PLEASE NOTE: Chairman Euille will begin the meeting promptly at Noon. Lunch for members and alternates will be available at 11:30AM

A G E N D A

**1. CALL TO ORDER AND PLEDGE OF ALLEGIANCE
(12:00PM)**

**Honorable William Euille
Mayor, City of Alexandria
COG Board Chair**

**2. ANNOUNCEMENTS
(12:05-12:10PM)**

Chair Euille

A. COG Leadership Retreat: July 24 – July 26

**3. EXECUTIVE DIRECTOR'S REPORT
(12:10-12:15PM)**

**4. AMENDMENTS TO AGENDA
(12:15-12:20PM)**

A. Staff suggested amendments – Reschedule General Services Administration Acting Administrator Denise Turner Roth for a future meeting, and allow more time for other agenda items.

**5. APPROVAL OF MINUTES FROM JUNE 10, 2015
(12:20-12:25PM)**

**6. ADOPTION OF CONSENT AGENDA ITEMS
(12:25-12:30PM)**

A. RESOLUTION AUTHORIZING COG TO ENTER INTO CONTRACTS WITH SELECTED VENDORS FOR PHASE 2 OFFICE CHAIR REPLACEMENT

The Board will be asked to adopt Resolution R44-2015, authorizing the Executive Director, or his designee, to enter into a contract not to exceed \$75,000 for the procurement of office chairs needed to complete Phase 2 of the COG Staff Office Chair Replacement. COG management developed a regular schedule to replace office chairs based on manufacture recommendations and industry best practices. Management divided the project into two phases to be completed in FY2015 and FY2016. The COG Board approved the first phase which was then completed in FY2015. Funding for this contract is budgeted for in the FY2016 Facilities Annual Operating Budget.

RECOMMENDED ACTION: Adopt Resolution R44-2015.

B. RESOLUTION AUTHORIZING COG TO PROCURE AND ENTER INTO A CONTRACT TO PROVIDE A WASHINGTON REGIONAL THREAT AND ANALYSIS CENTER TECHNOLOGY ANALYST FOR THE DISTRICT OF COLUMBIA HSEMA

The Board will be asked to adopt Resolution R45-2015 authorizing the Executive Director, or his designee, to receive and expend grant funds from the District of Columbia Homeland Security and Emergency Management Agency (HSEMA) in the amount of \$27,749. COG has been requested by the District of Columbia HSEMA to procure a contractor to serve as a Technology Analyst in the Washington Regional Threat and Analysis Center (WRTAC) at HSEMA for six months. Funding for this effort will be provided through a subgrant from the SAA for the National Capital Region. **No COG matching funds are required.**

RECOMMENDED ACTION: Adopt Resolution R45-2016.

ACTION AGENDA

**7. 2014 REGIONAL CRIME REPORT
(12:30-12:55PM)**

**Chief Allen Goldberg
Police Chief, Takoma Park Police
Chair, COG Police Chiefs Committee**

**Amy Philips
Strategic Executive Officer, Metro Transit Police
Chair, Police Policy & Planning Subcommittee**

The Police Chiefs Committee, in conjunction with its Police Planners subcommittee, annually collects and analyzes selected crime statistics for the Washington Metropolitan Area. Such information has proven useful to law enforcement and policy officials by providing a broad analysis of crime trends and establishing local and regional crime-fighting priorities. The Board will be briefed on the most recent report, which reflects crime trends for 2014.

RECOMMENDED ACTION: Receive briefing.

8. VIRGINIA GOVERNOR TERRY MCAULIFFE
(12:55-1:30PM)

Honorable Terry McAuliffe
Governor, Commonwealth of Virginia

Governor Terry McAuliffe is currently serving as the 72nd Governor of Virginia. Since being sworn-into office, he has aggressively focused on building a new Virginia economy. Today, Governor McAuliffe will explain why economic development is his number one policy priority in Virginia, and how his efforts can benefit the entire National Capital Region.

RECOMMENDED ACTION: Receive briefing.

9. "HOW SAFE ARE OUR ROADS?" REPORT
(1:30-1:45PM)

Audrey Mazurek
President, TSG Strategies, LLC.

Ms. Mazurek will present the 2014 "How Safe are our Roads?" report detailing annual data on the impact of drunk driving on road safety in the metropolitan Washington region. Findings include fatalities, injuries, crashes, arrests, and other data compiled throughout the past year.

RECOMMENDED ACTION: Receive briefing.

10. GENERAL SERVICES ADMINISTRATION ACTING ADMINISTRATOR DENISE TURNER ROTH
(TABLE ITEM)

11. COG LEADERSHIP RETREAT PREVIEW
(1:45-1:55PM)

Chuck Bean
Executive Director, COG

Mr. Bean will brief the Board on the agenda and workshops for the upcoming COG Leadership Retreat. The briefing will include anticipated speakers, projected goals, and potential outcomes. The 2015 COG Leadership Retreat is taking place on July 24-26 in Cambridge, Maryland.

RECOMMENDED ACTION: Receive briefing.

12. OTHER BUSINESS
(1:55-2:00PM)

13. ADJOURN – THE COG LEADERSHIP RETREAT IS JULY 24 – 26 IN CAMBRIDGE, MD. PLEASE NOTE THERE IS NO AUGUST BOARD OF DIRECTORS MEETING. THE NEXT MEETING IS WEDNESDAY SEPTEMBER 9, 2015
(2:00PM)

Reasonable accommodations are provided upon request, including alternative formats of meeting materials. Click here for information: www.mwcog.org/accommodations or call (202) 962-3300 or (202) 962.3213 (TDD).

AGENDA ITEM #2

ANNOUNCEMENTS

AGENDA ITEM #3

EXECUTIVE DIRECTOR'S REPORT

NATIONAL CAPITAL REGION TRANSPORTATION PLANNING BOARD

At the June TPB meeting, officials were briefed by Monica Backmon, Executive Director of the Northern Virginia Transportation Authority, about TransAction 2040, Northern Virginia's long-range transportation plan. In addition, the TPB heard a presentation on the COG State of the Region Infrastructure Report, and were updated on staff efforts to develop a Regional List of Unfunded Transportation Projects. [CLICK HERE TO VIEW TPB MEETING ITEMS.](#)

HUMAN SERVICES AND PUBLIC SAFETY POLICY COMMITTEE

HSPSPC convened top executives from the Montgomery County Workforce Investment Board, Alexandria/Arlington Workforce Investment Board, D.C. Workforce Investment Council, and The SkillSource Group, Inc. for a discussion of the resources they provide to the area's jobseekers and to outline opportunities for greater collaboration among their agencies. HSPSPC also received a briefing on the 2014 Annual Report on Crime and Crime Control. [CLICK HERE FOR REGION FORWARD BLOG ON WORKFORCE DISCUSSION.](#)

EMERGENCY PREPAREDNESS COUNCIL

The National Capital Region (NCR) Emergency Preparedness Council (EPC) hosted a half-day workshop in coordination with the NCR Homeland Security PMO to inform the NCR Homeland Security Strategic Plan revision. The purpose of the workshop was to obtain strategic guidance and input from the EPC on four main elements that will influence the revision of the plan: the current homeland security environment within the NCR; the scope, vision, and mission for the Strategic Plan; the top regional priorities for the NCR over the next three years; and best practices across the whole community that can be incorporated into the Strategic Plan.

Q&A:

**FRANK J. PRINCIPI,
WOODBIDGE SUPERVISOR,
PRINCE WILLIAM COUNTY**

Prince William County Supervisor and Emergency Preparedness Council Chairman Frank J. Principi discusses how he got involved in public service and how the region can work toward solutions to key challenges, specifically emergency preparedness issues.

COMMUTER CONNECTIONS EMPLOYER RECOGNITION AWARDS

Winners of the 2015 Commuter Connections Employer Recognition Awards have achieved a collective reduction of more than 3.5 million vehicle miles traveled this year through transportation benefits packages their firms offer employees in the metropolitan Washington region. Award winners Opower Inc., WeddingWire, and Southern Maryland Electric Cooperative were announced at the 18th Annual Employer Recognition Awards held at the Grand Hyatt Washington.

GREENGOV SYMPOSIUM

COG staff attended the GreenGov Symposium hosted by George Washington University, an event highlighting federal sustainability and greenhouse gas reduction goals and ongoing efforts, similar to the goals of COG’s Greenhouse Gas Multi-Sector Working Group. COG’s Community Engagement Campaign provided Taplt reusable water bottles for attendees and Environmental Planner Heidi Bonnaffon gave an overview of the Taplt program, along with an appeal for federal agencies to grant their employees easy access to tap water and to join the Taplt Partner network.

ROAD SALT FORUM

COG staff attended the Road Salt Forum at the Baltimore Metropolitan Council (BMC), a cooperative purchasing event providing access to vendors and information about environmentally friendly and effective pre-treatment products that reduce the amount of salt needed to maintain the use of roadways. Together, COG and the BMC form The Mid-Atlantic Purchasing Team (MAPT), a partnership that merges purchasing efforts and expands purchasing power between the two metropolitan regions.

US-EU URBAN PLANNING TOUR

COG Environmental Planner Isabel Ricker participated in the Heinrich Boll Foundation’s 2015 U.S.-EU Urban Planning Tour in June, a project funded by the European Union to advance sustainability on both sides of the Atlantic. Municipal leaders and planners from Virginia, Washington, D.C., the Czech Republic, and Hungary visited Amsterdam, Hamburg, and Prague to learn about models and best practices for sustainable urban development.

HOUSING ASSOCIATION OF NONPROFIT DEVELOPERS CONFERENCE

Staff from the COG Department of Community Planning and Services participated in the Housing Association of Nonprofit Developers (HAND) Annual Meeting and Housing Expo in the District of Columbia, focused on “Connected Region, Connected Future.”

Event Highlight:
ELECTRIC VEHICLE READINESS WORKSHOP

COG hosted leaders from the private and public sectors for a workshop on the region’s electric vehicle (EV) readiness. Participants also had the opportunity to test different EV models.

[READ MORE ABOUT THE EVENT.](#)

COG BOARD OF DIRECTORS - JULY 8

REGION FORWARD COALITION - JULY 10

TRANSPORTATION PLANNING BOARD - JULY 22

METROPOLITAN WASHINGTON AIR QUALITY COMMITTEE - JULY 29

COUNTY EXECUTIVES BAKER AND LEGGETT BRIEF THE COG BOARD

Montgomery County Executive Ike Leggett and Prince George’s County Executive Rushern Baker III spoke before the COG Board on regional economic competitiveness. Leggett’s remarks were featured by Montgomery County Media.

[CLICK HERE FOR THE STORY OR READ A RECAP ON OUR REGION FORWARD BLOG.](#)

TPB VEHICLE IDENTIFICATION NUMBER ANALYSIS

The findings of the TPB’s vehicle “census” were reported by the Frederick News-Post.

[CLICK HERE FOR THE STORY OR READ THE FULL ANALYSIS IN THE TPB WEEKLY REPORT.](#)

Media Highlight:

**STEPHEN WALZ TALKS
INFRASTRUCTURE ON WAMU**

COG’s Director of Environmental Programs Stephen Walz joined WAMU’s Martin Di Caro and Brookings Institution Senior Fellow Robert Puentes on The Kojo Nnamdi show on WAMU for an in-depth discussion of local infrastructure needs.

AGENDA ITEM #5

APPROVAL OF MINUTES FROM JUNE 10, 2015

**METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS
777 North Capitol Street, NE
Washington, D.C. 20002**

**MINUTES
Board of Directors Meeting
June 10, 2015**

BOARD MEMBERS AND ALTERNATES PRESENT AND NOT PRESENT: See attached chart for attendance

STAFF:

Chuck Bean, Executive Director
Sharon Pandak, General Counsel
Monica Beyrouti, Member Services Associate/Clerk to the Board

GUESTS:

Rushern Baker, County Executive, Prince George's County
Isiah Leggett, County Executive, Montgomery County
Marc Bashoor, Fire Chief, Prince George's County

1. CALL TO ORDER AND PLEDGE OF ALLEGIANCE

Chairman Euille called the meeting to order at 12:07PM and led those present in the Pledge of Allegiance.

2. ANNOUNCEMENTS

A. COG Leadership Retreat – July 24-26

3. EXECUTIVE DIRECTOR'S REPORT

The Executive Director highlighted a discussion with the General Services Administration that took place at the June Chief Administrative Officers' meeting. The discussion was very productive and COG looks forward to speaking with the GSA Administrator at the July Board meeting. Bike to Work day was held May 15th, 2015 and was very successful with 17,500 participants. Mr. Bean reviewed the July letters sent/received at COG including a letter from the White House congratulating COG as a White House Climate Action Champion, COG letters of support of maintained Federal funding of WMATA, and COG/TPB support of the Commuter Parity Act of 2015. Mr. Bean updated the Board on three economic competitiveness items over the past month including a meeting with James McGregor the new Publisher of the Washington Business Journal who provided insights on economic issues throughout the county. Secondly, Mr. Bean shared his insights from the NARC conference in Raleigh, NC and the region's Research Triangle Park. Thirdly, Mr. Bean updated the Board on a meeting hosted by COG and the Board of Trade bringing together the economic development leaders from DC, Virginia, and Maryland to discuss regional initiatives.

4. AMENDMENTS TO AGENDA

There were no amendments to the agenda.

5. APPROVAL OF MINUTES

The minutes of the May 13, 2015 Board Meeting were approved.

6. ADOPTION OF CONSENT AGENDA ITEMS

A. RESOLUTION AUTHORIZING COG TO RECEIVE AND EXPEND FUNDING FROM THE MARYLAND DEPARTMENT OF THE ENVIRONMENT TO SUPPORT AN EXECUTIVE WATERSHED MANAGER FOR THE ANACOSTIA

The Board adopted Resolution R41-2015 authorizing the Executive Director, or his designee, to submit a proposal and execute a contract up to \$50,000 from the Maryland Department of the Environment (MDE) to assist the Council in its support to the Executive Watershed Manager for the Anacostia for one year. The total cost of these services shall not exceed \$50,000. **No COG matching funds will be required.**

B. RESOLUTION AUTHORIZING COG TO ENTER INTO A CONTRACT WITH GARTNER INC. FOR INFORMATION TECHNOLOGY AND BUSINESS SERVICES

The Board adopted Resolution R42-2015 authorizing the Executive Director, or his designee, to enter into the annual contract with Gartner Inc. in an amount not to exceed \$35,800 to provide expertise on industry analysis, best practices, technical training, executive business skills training, and technical contracts review. Funding for this contract is included in the FY2016 IT Annual Operating Budget.

C. RESOLUTION AUTHORIZING COG TO CONDUCT THE YEAR 2015 WASHINGTON-BALTIMORE REGIONAL AIR PASSENGER SURVEY

The Board adopted Resolution R43-2015 authorizing the Executive Director, or his designee, to enter into contracts with the Metropolitan Washington Airports Authority and the Maryland Aviation Administration to conduct the 2015 Washington-Baltimore Regional Air Passenger Survey in an amount not to exceed \$325,000. Subsequently, the Executive Director, or his designee, is also authorized to enter into contracts with qualified firms to conduct the Year 2015 Washington-Baltimore Regional Air Passenger Survey under COG's Continuous Airport System Planning program. **No COG matching funds will be required.**

ACTION: The Board adopted Resolutions R41-2015 to R43-2015.

7. REGIONAL COLLABORATION TO IMPROVE ECONOMIC COMPETITIVENESS

A. ECONOMIC VISION FOR PRINCE GEORGE'S COUNTY AND REGIONAL COLLABORATION

Rushern Baker, County Executive of Prince George's County briefed the Board on economic development efforts in the County. He shared their goals for the coming year and his vision for advancing the regional economic competitiveness of the metropolitan Washington region as a whole.

B. ECONOMIC VISION FOR MONTGOMERY COUNTY AND REGIONAL COLLABORATION

Isiah "Ike" Leggett, County Executive of Montgomery County briefed the Board on economic development efforts in the County. He shared their goals for the coming year and his vision for advancing the regional economic competitiveness of the metropolitan Washington region as a whole.

C. DISCUSSION ON REGIONAL COLLABORATION TO IMPROVE ECONOMIC COMPETITIVENESS

Chairman Euille lead a discussion between the Board and County Executive Baker and County Executive Leggett on opportunities and challenges to improving the overall economic competitiveness of our region.

ACTION: Received briefing and discussed.

8. BRIEFING ON COG AND WMATA METRORAIL SAFETY COORDINATION

COG Deputy Director Stuart Freudberg and Prince George's County Fire Chief Marc Bashoor updated the Board on current Metrorail safety coordination between the COG and WMATA. In 2011 the COG Fire Chiefs and WMATA signed the Metrorail Transit Fire/Rescue Emergency Procedures Policy Agreement. The Board was updated on the current review and revision of this agreement including radio testing and emergency responder training.

ACTION: Received briefing.

9. OTHER BUSINESS

There was no other business.

10. ADJOURNMENT – Upon motion duly made and seconded, the meeting was adjourned at 1:50PM.

AGENDA ITEM #6

ADOPTION OF CONSENT AGENDA ITEMS

**METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS
777 North Capitol Street, NE
Washington, D.C. 20002-4290**

APPROVAL FOR PHASE 2 STAFF CHAIR REPLACEMENT

WHEREAS, the Metropolitan Washington Council of Governments (COG) owns office space on the second and third floors of 777 North Capitol Street, NE; and

WHEREAS, COG management has developed a regular schedule to replace office chairs based on manufacturer recommendations and best practices; and

WHEREAS, COG management prepared a plan to refresh all office chairs over the course of two phases that would be completed in FY2015 and FY2016; and

WHEREAS, the Board of Directors approved Phase 1 in FY2015 which replaced approximately half of the office chairs; and

WHEREAS, the Office of Information Technology & Facilities Management has identified and included funding for Phase 2 in its FY2016 budget.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS THAT:

The Executive Director, or his designee, is authorized to enter into contracts not to exceed \$75,000 for procurement of office chairs to complete the final phase of the office chair replacement.

**METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS
777 NORTH CAPITOL STREET, NE
WASHINGTON, DC 20002-4239**

RESOLUTION AUTHORIZING COG TO PROCURE AND ENTER INTO A CONTRACT TO PROVIDE A WASHINGTON REGIONAL THREAT AND ANALYSIS CENTER TECHNOLOGY ANALYST FOR THE DISTRICT OF COLUMBIA HSEMA

WHEREAS, the Metropolitan Washington Council of Governments (COG) serves as the Secretariat for the Urban Area Security Initiative (UASI) for the National Capital Region; and

WHEREAS, COG has been requested by the District of Columbia Homeland Security and Emergency Management Agency (HSEMA) to procure a contractor to serve as a Technology Analyst in the Washington Regional Threat and Analysis Center (WRTAC) at DC HSEMA for six months ; and

WHEREAS, the Technology Analyst will serve as the administrator for all fusion center systems, coordinates social media research within fusion center, develops and maintains the WRTAC internal share point site, and provides mission support to WRTAC staff; and

WHEREAS, the Technology Analyst will provide enhanced technology and application assistance necessary to support other analysts and liaison officers, maintain additional software applications, and provide coverage during after hour operations; and

WHEREAS, funding for the procurement and contract has been provided to COG by State Administrative Agent (SAA) for the National Capital Region.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE METROPOLITAN WASHINGTON COUNCIL OF GOVERNMENTS THAT:

The Executive Director, or his designee, is authorized to receive and expend up to \$27,749 to procure a contractor to serve as a Technology Analyst in the Washington Regional Threat and Analysis Center (WRTAC) at DC HSEMA for six months.

Funding for this effort will be provided through a subgrant from the SAA for the National Capital Region. No COG matching funds are required.

AGENDA ITEM #7

Metropolitan Washington Council of Governments

777 North Capitol Street NE, Suite 300

Washington, DC 20002

www.mwcog.org

OVERVIEW: 2014 At-a-Glance

The Metropolitan Washington Council of Governments' (MWCOC) 2014 Annual Report on Crime and Crime Control is based on crime incidents reported by member agencies in the metropolitan region. The annual report focuses on Part I offenses as defined by the Federal Bureau of Investigation. This includes the crimes against persons: homicide, rape, robbery, and aggravated assault, and the crimes against property: burglary, larceny, and motor vehicle theft.

Crime statistics should be viewed in context with environmental influences. Factors such as changes in legislation, reporting requirements, demographics, the economy, and/or changes in police policies and resources may influence the number of crimes reported in any jurisdiction. It is also important to consider crime trends over multiple years.

**Part I crime has declined 8.02%
since 2010.**

GRAND TOTAL		182	286	2,437	2,924	2,300	15,903	766	24,798

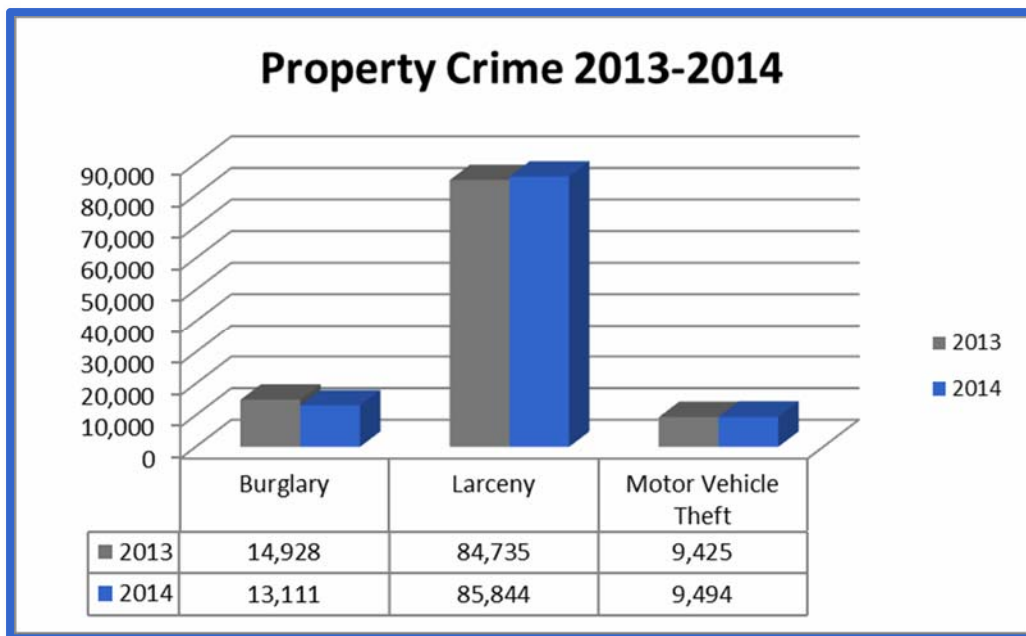

In 2014, the metropolitan Washington region recorded 125,064 total Part I offenses, a 1 % reduction from 2013 levels (126,323) and 8.02% less than 2010 levels (135,974). From 2013 to 2014, the region experienced increases in the following:

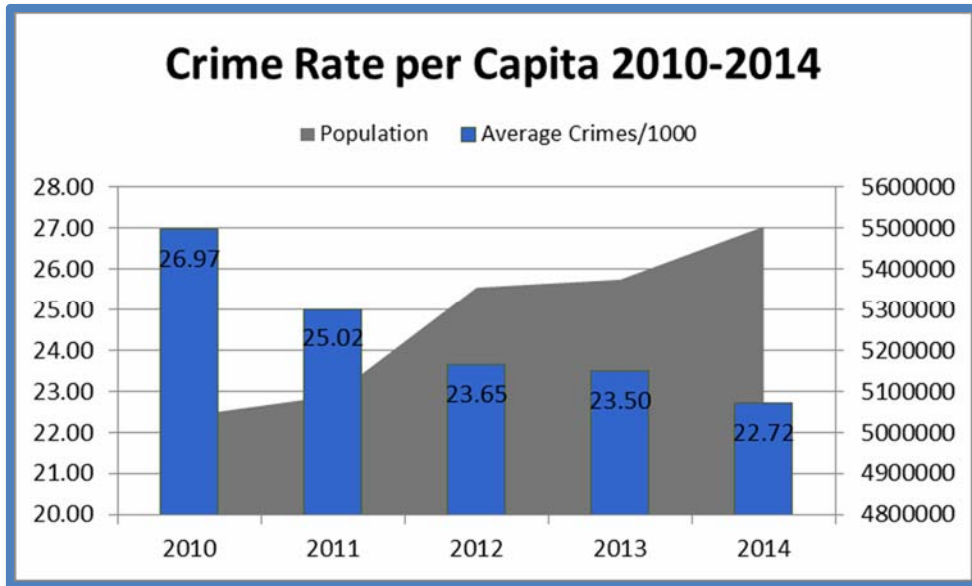

- Rapes (+86 or 8.7%)
- Aggravated assaults (+321 or 3.9%)
- Larcenies (+1,109 or 1.3%)
- Motor vehicle thefts (+ 69 or .73%)

Although this is the smallest reduction the region has seen in the last several years, it should be noted that the metropolitan region is currently at a 5-year low in the Part I offense categories of robbery (-21.82%) and burglary (-29.04%).

For the first time since 2011-2012, the metropolitan region experienced a slight rise in number of property crimes, driven by increases in larceny and motor vehicle thefts. However, the number of property crimes that occurred in 2014 is still 8.4% less than five years ago, a significant accomplishment given the number of people who live in and visit the region.

The crime rate per capita is a commonly accepted measure of crime and may serve as a basic indicator of overall crime trends. Over the last five years, the population in the metropolitan Washington region has increased 9.2%, yet the crime rate per capita continues to decline. Since 2010, the crime rate per capita has dropped from 26.97 crimes per 1,000 people to 22.72 crimes per 1,000. This is a positive sign but it is important to remember that the crime rate is based only on Part I crimes and does not serve as a comprehensive tracking of all crime. Furthermore, departments in this region report offenses under different programs, which also causes discrepancies in data comparison and analysis. Consistently, however, over the last decade, property crime has accounted for 87% of reported crime in the greater Washington region, while violent crime constituted only 13%.

Back to Basics – Crime Tips

There are a number of actions you can take to increase the safety of you and your loved ones. Reduce your risk of becoming a victim of crime by reviewing the below safety tips. Always trust your judgment and if something doesn't seem right, it might not be. Please, report suspicious activity or persons by calling your local police department using 911.

Personal Safety

- Always be aware of your surroundings and the people around you.
- Walk with a friend, whenever possible.
- When walking, limit your use of mobile devices that may distract you.
- If you are going to be away for a period of time, let friends and family know of your whereabouts.

Home Safety

- Install and use locks on your doors and windows.
- Keep doors locked, whether you are home or not.
- Before opening the door, check to see who it is before opening. If you do not know the individual, ask for identification.
- Maintain good lighting around entrances.
- Leave a light, radio, or TV on, or use timers, if you are going to be gone for an extended period of time.
- Do not leave spare keys in areas easily accessible. Instead, consider providing spare keys to trusted friends or neighbors.
- Make sure your mail is taken care of if you are away.
- Call the police immediately when you see suspicious persons or activities.

Vehicle Safety

- Lock your doors when driving.
 - Have your keys in your hand as you approach your vehicle.
 - Check the inside of your vehicle prior to entering.
 - Park in well-lit, heavily traveled areas.
 - Remove valuables from your vehicle. If you must keep items in your car, keep them out of sight by placing them in your trunk or glove compartment.
-
- After parking, ensure doors are locked and windows are closed.
 - Don't leave your keys in your car while it is running. When you park your car, take the keys. According to the Washington Area Vehicle Enforcement Task Force, the vast majority of vehicle thefts in the area involve cars left running with the keys inside.
 - Keep emergency kits containing a flashlight, flares, and other essentials in your vehicle.

Back to Basics – Crime Tips

ATM Safety Tips

- Make sure you have memorized your personal identification number (PIN). Never write it down on your ATM card or keep it with the card. Never tell anyone your code or let them enter your code for you.
- Do not give out information about your PIN over the telephone—banks will never request such information.
- Try to use machines you are familiar with, and use terminals located in banks rather than independent terminals.
- Be aware of your surroundings. Look around before conducting a transaction. If you see anyone or anything suspicious, cancel your transaction and go to another ATM.
- If you must use an ATM after hours, make sure it's well lighted.
- Use your body as a shield when making a transaction at the ATM.
- Never walk away from an ATM with cash still in hand. If you are going to count your money, do so at the ATM. Then take the time to put your money away before leaving.
- When making an ATM transaction from your car, be aware of your surroundings. Keep your eyes and ears open, and keep car doors locked.
- Report any lost or stolen cards as soon as you discover they're missing.
- Check your receipts against your monthly statements to guard against ATM fraud.
- Shred your ATM receipts when you no longer need them.

Never...

- Carry large amounts of money with you.
- Leave your purse or wallet unattended in public.
- If someone attempts to steal your property, never fight.
- If you are robbed or assaulted, report the crime to the police. Try to describe the attacker accurately. Your actions can help prevent someone else from becoming a victim.

Policing in the 21st Century

In the wake of several high profile police-related deaths involving minority men, demonstrations and protests over police use of force erupted throughout the country, exposing rifts in the relationships between local police and the communities they serve. These protests sparked nationwide discussions on law enforcement procedures and race relations. To address these issues, President Barack Obama formed the *Task Force on 21st Century Policing*, which underscored the need for law enforcement to strengthen community policing and trust with those they are sworn to protect. The final report of the President's task force was published recently and offered recommendations and a series of action items organized around six topical "pillars": building trust and legitimacy, policy and oversight, technology and social media, community policing and crime reduction, officer training and education, and officer safety and wellness.

Trust between law enforcement and the people they protect and serve is essential to the stability of our communities and the safe and effective delivery of policing services. Law enforcement agencies in the metropolitan Washington region serve a large and diverse population, and have already built many good relationships around these pillars and experienced successes on many fronts, as demonstrated in some of the annual achievements below:

- Law enforcement agencies in the metropolitan Washington region recognize that to best serve their communities, they need to involve residents and community stakeholders in a collaborative

manner. While community policing has been a fundamental philosophy and strategy in law enforcement, the recent protests have highlighted the need to break down traditional barriers between law enforcement and citizens, especially in minority neighborhoods. The Arlington County Police Department conducted a series of community forums that focused on the developing trust and confidence in the criminal justice system.

- The Fairfax County Police Department recognized the existing diversity gaps between the police and the community they serve, and in an effort to improve recruitment, the Chief of Police instituted the [Council on Diversity Recruitment](#). The Chief's Council consists of prominent citizens and business leaders who bring networking opportunities to the Department, and provide valuable insight into the many cultures throughout the County. In 2014, the Council developed a strategic plan to support the Department's efforts in diversity recruitment and to hold the agency accountable for meeting its goal of having a department that is representative of the community it serves.

Policing in the 21st Century

- Police departments in the metropolitan region have been effective at responding to trends and addressing offenses that have traditionally been very high in this area, like robbery and motor vehicle theft. In the District of Columbia, the Metropolitan Police Department (MPD) has been successful in driving serious violent crime down over the last several years, due in part to the specially-trained Nightlife Unit, which had a substantial impact on robberies in all of MPD's districts. Despite an overall decline in gun violence, the District, and many other jurisdictions experienced a significant increase in family violence, including intimate partner violence, child abuse, and neglect. This problem is often beyond the reach of the police department to prevent, rooted indoors, in families that sometimes have histories of violence. Last year, the MPD launched the *Youth Creating Change* program, which helps young adults develop skills and abilities in the areas of leadership, teamwork, and community development. This program proactively engages youth known to face persistent violence in an effort to prevent future violence.
- In 2014, the Metro Transit Police Department implemented the *Respect Your Ride* campaign, an education and outreach program that engaged youth in open discussion about appropriate behavior on public transportation and how to stay safe. The program was designed specifically to improve the safety and security of student riders and minimize youth disorder in the Metro system. Transit officers have attended nearly 100 school presentations, back-to-school nights, youth council meetings, and the Mayor's Youth Town Hall in the District of Columbia.
- In 2014, after three consecutive years of increasing heroin overdoses, the Frederick County Sheriff's Office met this health epidemic head on and became one of the first local law enforcement agencies to provide naloxone (Narcan) training to its deputies. Heroin and other drug addictions can drive up the number of crimes such as burglary and theft. To address the increasing crime rates and overdoses, and in coordination with the Frederick County Health Department, the Sheriff's Office trained 130 deputies in the administration of naloxone, an opiate antidote, to overdose victims they may come into contact with during the tour of duty. This was an effective crime-reduction strategy; Part I offenses declined in Frederick County in 2014, and a number of other departments have also implemented similar overdose prevention programs.
- In Prince William County, after conducting several large heroin busts in a short period of time, the police department began taking a new approach towards the heroin epidemic. After arrest, the suspects were given the opportunity to meet with a chaplain who immediately takes them to a drug treatment counselor rather than going directly to jail. This smart policing initiative is a partnership with the Community Services Board that helps break the cycle of arrest, release, addiction, and arrest, by treating suspects at the same time they are facing prosecution. This practice will be applied whenever feasible when dealing with highly addictive illegal drugs.

Policing in the 21st Century

- Crisis Intervention Training (CIT) programs are local initiatives designed to improve the way law enforcement and the community responds to people experiencing mental health crises. They are built on strong partnerships between law enforcement, mental health provider agencies and individuals and families affected by mental illness. It recruits, trains and supports law enforcement to respond effectively to incidents involving individuals experiencing a mental health crisis. As a result, those individuals will not be unnecessarily jailed because of behavior resulting from their illness but will instead gain access to emergency, inpatient, and community-based mental health treatment services. The [Montgomery County Police Department's Crisis Intervention Team](#) (CIT) offers 40 hours of training on mental illness, including role playing, de-escalation techniques, and learning firsthand from experiences of people with mental illness. To date, MCPD has trained over 600 of its officers. Several other jurisdictions have implemented similar CIT programs, and have set specific goals in order to have approximately 25-30% of their sworn staff certified in CIT.
- In Maryland, the State Police and Maryland Coordination and Analysis Center, in partnership with several other agencies, implemented a video-sharing situational awareness tool to enhance the regional response to crises and planned special events. In 2014, *MView* increased access for more than 100 federal, state, county, and municipal organizations throughout the region to over 3,000 live streaming video cameras.
- There are several departments in the region that have implemented body-worn camera programs, or are involved in pilot programs to evaluate the integration of cameras into their daily operations. Based on the experience of other law enforcement agencies across the country that have implemented body-worn camera programs, the initial findings indicate a reduction in citizen complaints, resolving officer-involved incidents more expeditiously, increased accountability and transparency, and identifying and correcting internal agency problems, such as officer training and policy issues. By providing a video record of police activity, body-worn cameras have made police operations more transparent to the public and have helped resolve questions following encounters between officers and members of the public. Body-worn cameras are helping to prevent problems from arising in the first place by increasing officer professionalism, helping agencies evaluate and improve officer performance, and allowing agencies to identify and correct organizational problems within the department. Using body-worn cameras can help improve law enforcement operations in several important ways, including:
 - Documenting encounters between police and the public;
 - Investigating and resolving complaints and officer-involved incidents;
 - Reducing violent interactions between officers and the public;
 - Documenting evidence;
 - Preventing and resolving complaints brought by members of the public; and
 - Strengthening police transparency, performance and accountability.

Policing in the 21st Century

Moving forward, it is incumbent on all law enforcement agencies to assess their current policies, procedures, and practices in light of the recommendations made in the task force's final report. Many of the recommendations are focused around accountability, building trust, community engagement, and being sensitive to community concerns so that agency policies, procedures, programs, and training, and to the extent practicable, reflect the community's input and values. The metropolitan region has a strong foundation, built on many of the pillars that national leaders have announced and support.

Policing in the future requires a renewed commitment to forming and nurturing strategic relationships with various community stakeholders. Law enforcement agencies continue to learn the importance of community partners in developing and implementing effective crime control strategies. Effective partnerships contribute to police-community cooperation, including the flow of information about crimes and suspects; facilitate mutual respect among officers and the communities they protect and serve; and can be a force multiplier that allows law enforcement to tap into valuable community resources in efforts to prevent and deter crime.

Agencies are encouraged to put in place programs designed to promote positive interactions between police and communities; to adopt and use new technologies to enhance public trust and public safety; to provide opportunities for additional training on a range of topics, including leadership, for police at all levels.

OFFICER ROLL CALL

Sign Up an Officer Today

OfficerRollCall.org

Tell us a story about a law enforcement officer currently serving or an officer from the past. We want to hear and preserve all the stories that make up the diverse fabric of law enforcement in the United States yesterday, today, and tomorrow.

Record Your Service

Make a permanent record of your service and dedication as a law enforcement officer by enrolling in Officer Roll Call, an interactive portion of the Museum in which officers, or friends and families of officers, can tell their stories.

Tell Your Story

Create a record for an officer from the past or present. In order to ensure that the Officer Roll Call is accurate, please include a copy of credentials (pdf format) or some other proof of service with your submission.

AGENDA ITEM #8

VIRGINIA GOVERNOR

TERRY MCAULIFFE

Terry McAuliffe, the 72nd Governor of Virginia

Terry McAuliffe is the 72nd Governor of Virginia. Since being sworn-into office, Governor McAuliffe has aggressively focused on building a new Virginia economy.

Whether traveling to Bedford or Beijing, Governor McAuliffe has made it clear that his number one priority is economic development and he is working hard to create and maintain jobs throughout the Commonwealth.

The Governor is also working to restore trust in government. On his first day in office, he signed an executive order imposing a \$100 gift ban on himself, his family, and members of his administration and their families. He established through executive order the Commission on Integrity and Public Confidence in State Government, which will focus on ethics oversight and enforcement, limits on gifts and loans, rules on conflicts of interest, disclosure requirements and post-public service restrictions.

McAuliffe has proven that his administration will be smart stewards of Virginia's transportation dollars. Demonstrating his commitment to bipartisanship, he worked with Republican leadership on House Bill 2 to prioritize transportation projects based on what is best for Virginia's commuters not politicians. He followed through on his commitment to lowering the downtown/midtown tunnel tolls to alleviate the burden on Hampton Roads residents, commuters, and businesses. He eliminated the EZ Pass maintenance fee for all Virginia commuters, and suspended work on Route 460, because he does not believe that Virginia taxpayers should be spending hundreds of millions of dollars on a road when we don't have permits to ensure its completion. Governor McAuliffe also worked with the Governor of Maryland and the Mayor of the District of Columbia to invest \$75 million in our regional metro system – taking cars off the roads and relieving congestion.

Governor McAuliffe understands that in order to compete for the jobs of tomorrow, it is essential that we make key investments today. The Governor signed legislation increasing the amount of Virginia qualified research and development expenses that can now be claimed as a tax credit. This legislation is important because it encourages private companies to invest in the jobs of the future.

In order to ensure that Virginia continues to have the best workers in the world, Governor McAuliffe understands that Virginia must continue to have a world-class education system. This year, he was proud to sign standards of learning reform legislation, to make Virginia's education system work better for students, teachers, and our schools.

Virginia is home to approximately 800,000 veterans, and the Governor is committed to fighting for those who have so bravely served our country. He expanded the Virginia Values Veterans initiative, which encourages employers to recruit, hire, train, and retrain our veterans. He also signed legislation to provide unemployment compensation to military spouses who leave their job to accompany their spouse to a new military assignment in another state, as well as legislation that will expand access to higher education for eligible veterans' family members.

In July 2014, Governor McAuliffe signed Executive Order 23 Establishing the New Virginia Economy Workforce Initiative. With a goal of an additional 50,000 credentials, aligning the workforce supply with demand and giving experience credit to our veterans, Governor McAuliffe wants to redesign our current workforce system to work with the needs of our communities and businesses.

The Governor's administration has made unprecedented progress on the restoration of rights to rehabilitated felons who have served their time. People who have paid their debt to society should be able to work, pay taxes and vote.

Governor McAuliffe ran for office to fight for uninsured Virginians and that is why he took bold executive action to expand health care. His plan, A Healthy Virginia, will help improve the lives of more than 200,000 Virginians by expanding access to care, improving care for veterans and for those with severe mental illness, and enhancing value and innovation across our health system.

Governor McAuliffe previously served as Chairman of the Democratic National Committee from 2001 to 2005, was co-chairman of President Bill Clinton's 1996 re-election campaign, and was chairman of Hillary Clinton's 2008 presidential campaign.

He and his wife Dorothy were married in 1988 and have five children.

The Governor attended Catholic University and Georgetown Law School.

*Commonwealth of Virginia
Office of the Governor*

Executive Order

NUMBER TWENTY THREE

ESTABLISHING THE NEW VIRGINIA ECONOMY WORKFORCE INITIATIVE

Importance of the Initiative

With its favorable economic climate, quality of life, regulatory environment, and low unemployment rate, Virginia has been designated as the best state for business. Also named the Best State for STEM Jobs, Virginia has the highest concentration of high tech jobs per capita in the nation. In light of these positive factors, it is critical to prepare for changes to Virginia's employment marketplace and retiring workforce.

A new workforce agenda is required to fill jobs of today and the future. Based on current estimates, by 2022, about 500,000 new jobs will be created in Virginia. Over 930,000 workers will be needed to replace Virginia's retiring workforce. Many of these jobs will be in scientific, technical, or healthcare careers, and will require postsecondary education or workforce credentials. Careers in these fields are readily accessible for those who are trained, credentialed, and ready to work. However, we do not have enough tech-savvy frontline workers.

The Commonwealth must devise a long-term, comprehensive plan to equip our workforce with in-demand skill sets that will retain and attract businesses. It is crucial for enough students to graduate from Virginia's educational institutions to meet the demands from current and prospective employers. Employers must be engaged to determine current and future employment needs.

As Chief Executive Officer and Chief Workforce Development Officer for the Commonwealth of Virginia, and in furtherance of my commitment to workforce development and training, I am dedicated to ensuring that all Virginians are afforded access to a world class education and workforce system. Therefore, in consultation with the Secretary of Commerce and Trade, Chief Workforce Development Advisor, I am directing Virginia's Workforce Development System ("Workforce System"), including the Department for Aging and Rehabilitation Services, Department for the Blind and Vision Impaired, Virginia Community College System, Virginia Economic Development Partnership, Virginia Department of Education, Virginia Employment Commission,

Department of Labor and Industry, Department of Social Services, as well as the Virginia Board of Workforce Development, local Workforce Investment Boards (“WIBs”), and other state agencies as identified below to take immediate action to marshal the Commonwealth’s education and training resources.

Establishment of the Initiative

Accordingly, by virtue of the authority vested in me as Governor under Article V of the Constitution of Virginia and under the laws of the Commonwealth, and subject to my continuing and ultimate authority and responsibility to act in such matters, I hereby create Establishing the New Virginia Economy Workforce Initiative.

Actions to Drive Virginia’s Workforce System

This Executive Order requires Virginia’s Workforce System to take the following immediate actions:

1. Establish annual goals and identify opportunities to increase statewide attainment rates of credentials that align with employer needs.

Specialized, skilled, and technical jobs at the technician level currently comprise about 45% of Virginia’s labor market. The required training for these jobs is usually acquired through community college degrees, certificate programs, apprenticeships, certifications, licenses, or other career-related credentials. As the demand for new workers with specialized skills increases, the Commonwealth must act quickly to address industry needs, fill the workforce gap, and foster new opportunities.

- “Pathway to 50K” – Virginia will set a goal of attaining 50,000 STEM-H credentials, licenses, apprenticeships, and associate degrees that meet the immediate workforce needs during my administration. Many of these jobs will have high individual wages and bring a substantial return on investment to the gross state product.
- Action Item: By October 31, 2014, state agencies including the Department for Aging and Rehabilitative Services, Department of Education, Department of Labor and Industry, Department of Social Services, Virginia Community College System, and local WIBs must each produce a report for the Secretary of Commerce and Trade that will incorporate the current workforce credential attainment levels from FY2013, and regional business and industry needs. After reviewing the baseline data, each agency and WIB will establish an annual goal and strategies for the next three years to increase attainments rates and identify barriers to credential attainment to meet the Governor’s goal of 50,000 credentials. The reports must also identify opportunities to take immediate action for changing state policies, funding, or applying for federal waivers to increase credential rates. In addition, local WIBs will work with local businesses and industry sectors, local chambers of commerce, and local community colleges to identify and prioritize those workforce credentials most in demand by employers in the WIBs’ regions. Transparency of credential attainment will be provided by an online Commonwealth Scorecard of Economic Opportunity that will be hosted by the State Council for Higher Education of Virginia.

- Action Item: By December 31, 2014, the Secretary of Commerce and Trade will approve a plan for implementing new statewide common metrics and methods of measuring postsecondary education/workforce credential attainment, employment, wages, professional mobility, and return on investment. Currently, the only established performance metrics for most of Virginia’s publicly funded workforce programs are those from various federal agencies. To better align Virginia’s workforce programs with a common goal of continued economic development, the state will, for the first time, introduce common performance metrics for all publicly funded workforce programs.
2. Create seamless transitions for Virginia’s veterans by providing high quality education and workforce services that accelerate career opportunities.

At present, over 840,000 veterans reside in Virginia. Since 2000, Virginia has had high growth in its veteran population, and, more specifically, those veterans under the age of 25. With a strong military presence, defense activities, and civilian contractors, Virginia is a leader of veteran employment strategies through the Department of Veteran Services’ Virginia Values Veterans (V3) program. V3 educates employers to recruit, hire, and retain veterans. However, more resources and services are needed to enhance this program. In addition, actual skill sets and academic transcripts must be quickly evaluated for transferability. Virginia must take a multifaceted approach to building a comprehensive veteran workforce services initiative.

- “Our Patriot Pledge” - Virginia will request that 10,000 businesses sign pledges of commitment for hiring our veterans. In addition, by the end of the administration, Virginia will double the number of veterans hired through the V3 program.
 - Action Item: By November 30, 2014, the Secretary of Commerce and Trade, in consultation with Virginia’s Workforce System, the Secretary of Education, the Secretary of Veterans and Defense Affairs, the Department of Veterans Services, and each of the education and workforce development agencies and programs within Virginia’s Workforce System will present a plan to the Governor on how to recruit and retain veterans in Virginia. The plan will outline how Virginia will convert military experience and training into academic or workforce credentials, simplify and accelerate the education and workforce credentialing process toward a career, create online portals with information and services that support the transition process, and build an awareness of careers and services that Virginia offers as the preeminent state for veterans.
3. Diversify the economy by providing workers with skills to meet new private sector needs, encouraging innovation through entrepreneurship, retooling regions for economic advancement, and educating Virginia’s workforce for the future.

Roughly thirty percent of Virginia’s economy is tied to the federal government. Virginia needs to strengthen its economy by encouraging the growth of robust industry sectors that do not rely on government contracting or grant funding.

- “A Diversified Dominion” – Virginia will seek to diversify the economy by increasing support for small businesses, start-ups, entrepreneurial ventures, and patent production.

The Commonwealth can help advance current industries, while recruiting new ones to maintain our global strength.

- Action Item: The Secretary of Commerce and Trade will work closely with the Virginia Economic Development Partnership, state and local chambers of commerce, trade associations, and Virginia's Workforce System to set a vision for Virginia's future economy. Local, state, and national business trends and forecasts will be evaluated to help shape next steps to retain Virginia's current and future competitive edge. These short-term and long-term goals, recommendations, and strategies will be submitted in a report to the Governor's Office by no later than December 1, 2014.
4. Align workforce supply to current and anticipated employer demands by constructing career pathways and training solutions for the dislocated, underemployed, and future worker.

Virginia will align its workforce supply to current and anticipated employer demands by constructing career pathways and training solutions for the dislocated, underemployed, and future worker. Currently, tens of thousands of jobs are left unfilled in Virginia due to the creation of new jobs and positions available from the recently retired. In Virginia's metropolitan areas, job vacancies for highly skilled and high tech workers average over a month to fill, while a single job in rural Virginia might garner hundreds of applications. Education attainment requirements also differ from industry to industry and can be regionally specific.

- "Real-Time Resources" – Virginia will create the Commonwealth Consortium for Advanced Research and Statistics (CCARS) for workforce and education policy. CCARS will support education and workforce entities through analysis and research to help drive economic development in the Commonwealth. This consortium will provide real-time data about human capital, regional skills gaps, local and state wage data, university research and talent, and availability of local and state workforce programs. The availability of data will increase outcomes-based decision-making which will help create effective and efficient strategies for employment development and job replacement, as well as streamline and target resources. The Secretary of Commerce and Trade will convene a CCARS conference at least once a year.
- Action Item: To better assess and take action regarding regional and state skills gaps in key occupations and industry sectors, the Virginia Employment Commission, in partnership with the Secretary of Commerce and Trade and Virginia's Workforce System, will develop an online dashboard that integrates regional and statewide information about the supply of workforce credentials, as well as information about college degrees, and other academic credentials.

Effective Date of the Executive Order

This Executive Order shall become effective upon its signing, and shall remain in full force and effect unless amended or rescinded by further executive order.

Given under my hand and under the Seal of the Commonwealth of Virginia this 13th day of August, 2014.

Terence R. McAuliffe, Governor

Attest:

Levar M. Stoney, Secretary of the Commonwealth

AGENDA ITEM #9

“HOW SAFE ARE OUR ROADS?” REPORT

How Safe Are Our Roads?

Greater Washington's Checkpoint Strikeforce campaign superhero, SoberWoman, in Arlington, Virginia on November 22, 2014 rewarding area celebrants who have planned safe ways home.

Annual Data Report on the Impact of Drunk Driving on
Road Safety in the Washington D.C. Metropolitan Region
DRAFT - December 2014

A Look at Regional and National Figures

The Metropolitan Washington Region has experienced an increase in the overall number of alcohol-impaired fatalities, injuries, and crashes from 2012-2013. The region has seen a slight increase in alcohol-related traffic arrests.

Regional alcohol-impaired traffic fatalities have increased 33.33% of total crash fatalities in the region, compared with 27.0% due to alcohol impairment in 2012. Nationally, alcohol-impaired fatality rates stand at 31%.

2014 How Safe Are Our Roads?

How Safe Are Our Roads? 2014 Overview

Findings in the 2014 report include:

FATALITIES: Local alcohol and/or drug-impaired traffic fatalities **increased** by 19.12% between 2012-2013 (from 68 to 81 such fatalities).

INJURIES: Regional alcohol and/or drug-related traffic injuries **decreased** by 4.65% between 2012-2013 (from 2,299 to 2,192 such injuries).

CRASHES: Area traffic crashes attributed to alcohol and/or drugs **decreased** by 3.33% between 2012 and 2013 (from 4,289 to 4,146 such crashes).

ARRESTS: Local arrests for either driving under the influence (DUI) or driving while intoxicated (DWI) **increased** by 2.21% between 2012 and 2013 (from 17,341 to 17,724 such arrests).

Of the Washington Metropolitan area's 243 total traffic fatalities for 2013, **81** or 33.33% of these roadway deaths were due to drivers who were alcohol and or drug-impaired (BAC = .08+). National statistics (National Highway Traffic Safety Administration, NHTSA) show that 31% of total U.S. vehicular fatalities in 2013 were reported as alcohol / drug impaired (BAC = .08+).

Background

Data compiled in this report comes from national, state, and local sources including the U.S. Census Bureau, National Highway Traffic Safety Administration (NHTSA), National Park Police, and Virginia and Maryland Department of Transportation. Primary data was collected from the local police departments of each jurisdiction.

Jurisdictional data in this report does not always include State Police data. The State Police in Maryland and Virginia are charged with enforcing traffic laws on state highways and interstate expressways; inclusion of this data would likely increase the number of incidents in all categories. It is possible that some jurisdictional data may include State Police figures because local police often respond to highway incidents when State Police are unavailable. In some jurisdictions, the data reported were provided by the state, and most likely include state police data.

Methodology

Following is a listing of the agencies providing local jurisdictional data:

District of Columbia:

Metropolitan Police Department
U.S. Park Police (National Park Service)

State of Maryland:

MD National Study Center for Trauma and Emergency Medical Systems
Montgomery County Police Department
Prince George's County Police Department

Virginia:

State of Virginia: Virginia Department of Motor Vehicles
Arlington County Police Department
Fairfax County Police Department
Loudoun County Sheriff's Office
Prince William County Police Department
City of Alexandria Police Department
City of Fairfax Police Department
City of Falls Church Police Department
City of Manassas Police Department
City of Manassas Park Police Department

Definitions of Data-Related Terms

NHTSA Alcohol-Impaired Driving Traffic Fatalities: any fatality that occurs in motor vehicle traffic crash that involves at least one driver or a motorcycle rider (operator) with a BAC of .08 grams per deciliter or higher; This threshold does not consider the impairment status of non-occupants involved in fatal crashes, such as pedestrians or pedal cyclist.

WRAP Alcohol-Impaired Driving Traffic Fatalities: Any person who dies as result of a traffic crash involving alcohol with a BAC level .08 or higher

WRAP Alcohol-Related Traffic Fatalities for Persons Under 21: Any person under the age of 21 year who has died as result of an alcohol-related traffic crash involving a driver with a BAC level .01 or higher. This includes drivers, passengers, bicyclists, and pedestrians.

Alcohol-Related Traffic Injuries: where any driver, passenger, bicyclist or pedestrian is listed on the police report to be injured in an alcohol-related crash where the BAC = .01 or higher

Alcohol-Related Traffic Injuries for Persons Under 21: any person under the age of 21 who receives injuries because of an alcohol-related crash where the BAC = .01 or higher; this includes drivers, passengers, bicyclists, and pedestrians.

Alcohol-Related Traffic Crashes: the driver, passenger, bicyclist, or pedestrian is listed on the police report as drinking before the crash with a BAC = .01 or higher. At least one driver in the crash was reported to be under the influence of alcohol and/or other drugs.

Alcohol-Related Traffic Crashes for Persons Under 21: any person under the age of 21 who was involved in a traffic crash involving a driver with a BAC = .01 or higher. This data includes drivers, passengers, bicyclists, and pedestrians.

Drunk Driving Arrests/Citation: a general reference to those criminal cases that are called DUI, DWI, OUI, OWI or other acronyms that generally describe three types of cases:

-The driver is sufficiently impaired by alcohol, drugs or a combination of the two, and cannot drive safely, and has a BAC level of .01 or higher;

-The driver is a "Drunk Driver", as defined by the driver being above that state's legal limit of BAC .08;

-A driver under the age of 21 is under the influence of alcohol at a BAC level of .02 or higher

DWI/DUI Arrests: a driver is listed on the police report as arrested for operating a motor vehicle under the influence of alcohol with a BAC level of .01 or higher

DWI/DUI Arrests for persons under 21: any person/driver under the age of 21 listed on the police report as arrested for operating a motor vehicle under the influence of alcohol with a BAC level of .01 or higher

Data Analysis

The findings in this report are based on data collected from organizations and agencies from across the Washington Metro region. Data tables provide totals within the Washington Metro region as well as individual jurisdictions. Analysis focuses on changes in motor vehicle fatalities, injuries, crashes, and arrests. Results are reported as numbers and percentage of alcohol-related incidents to total numbers across time.

Data Limitations

It is important to note limitations that affected collection and analysis of this data, as they may limit comparability across jurisdictions and influence the

level of reasonable analysis. Whenever possible, limitations are noted within the tables and figures.

It should be noted that the researchers constructing this report utilized data from the National Study Center for Trauma and EMS (NSC) at the University of Maryland, for data pertaining to crashes, injuries, and arrests. Regarding the alcohol-related crash and injury data, the variable identifies a driver or pedestrian under the influence of alcohol, drugs, both, or none. Within the NSC data reported, researchers analyzed drivers reported as under the influence of *alcohol or both*, to capture alcohol-related crashes and injuries. This is different than the impaired definition from last year that also included the drugs attribute. That variable is created using several others on the report (such as driver condition, BAC, etc.) so it does not specify only those with BAC 0.01+, and comparisons to previous year's data should be made with caution. In addition, because this report tracks just two jurisdictions in Maryland, regional totals could also be affected.

Additionally, there is no standardization for data definitions, collection, or recording within the Washington Metro region. Each agency has its own system of data collection, coding, and management. In addition, the range and type of data collected may not be consistent across jurisdictions. The data reported and analyzed in this report reflect data as reported by contact agencies. Independent verification of data to ensure accuracy is not within the scope of this report.

Information on data collection and management systems and changes within jurisdictions was not solicited. In addition, changes in laws or judicial priorities may result in increased attention to specific data (e.g. blood alcohol level in driver fatalities related to stricter server laws). In some cases, this may result in missing data or data that appears inconsistent when examined against the same values for previous years. It is beyond the scope of this report to identify data methodology or priority changes for each jurisdiction.

Data on alcohol-related driver involvement in motor vehicle fatalities, injuries, crashes and arrests was requested for alcohol-related (BAC= .01+) only. Therefore, data are assumed to reflect only alcohol impairment and are reported in this way, although some cases may involve drug use.

The number of incidents, total and related to alcohol impairment, is very small for some jurisdictions. Due to the small numbers, jurisdictional analysis might easily misrepresent the problem. For example, an increase of one alcohol-related fatality would have little impact in a jurisdiction that saw 50 alcohol-related fatalities the previous year, but would appear to represent a significant change in a small jurisdiction with only one or two alcohol-related fatalities the previous year.

Data are reported and analyzed by absolute numbers only. At this time, information that would allow identification of comparable rates is unavailable. It is assumed that people involved in motor vehicle crashes and arrests may live within or outside the Washington Metro region. Collection of data on driver or passenger residence versus jurisdiction of accident is beyond the scope of this report. Calculating rates based on the Washington Metro region's population or number of licensed drivers would not accurately represent the problem since drivers may be from outside the jurisdiction.

Data on people under the age of 21 years is collected in an inconsistent manner among jurisdictions. Caution must be used in evaluation of this data due to varied definitions and missing data.

Many charts display two regional total numbers. The first, "DC Regional Total" is the total of the District of Columbia, the Maryland Region, and the Northern Virginia Region. The second regional number, "Regional Total Adjusted" includes data from the United States Park Police. Because the Park Police information has only been recently collected, it is shown separately and the two regional totals are shown so that comparisons with previous years can be done.
