#### **ITEM 13 - NOTICE**

May 20, 2009

Notice of Proposed Amendment to the 2009 CLRP and FY 2010-2015 TIP to include the Closure of the I-395 Southbound Exit Ramp to 3rd Street NW, the Reconfiguration of the Southbound Entrance and Northbound Exit Ramps, and the Reconnection of F and G Streets between 2nd and 3rd Streets NW in Conjunction with the "Return to L'Enfant" Planned Unit Development on the I-395 Air Rights between E Street and Massachusetts Avenue NW

Staff

**Recommendation:** Review proposed project submission as an

amendment to the 2009 CLRP and FY 2010-

2015 TIP.

**Issues:** None

**Background:** The 2009 CLRP and FY 2010-2015 TIP are

scheduled to be adopted by the TPB on July 15, 2009. DDOT has requested that the TPB initiate the process to amend the 2009 CLRP and FY 2010-2015 TIP to include the "Return to L'Enfant" transportation components, as described in the

enclosed materials.

Following a public comment period which ends on June 13, the Board will be asked to approve the transportation components project submission and the air quality conformity analysis scope of work for the plan and TIP amendments at the June 17, 2009 meeting. The draft conformity results for the amendments are scheduled to be released for public comment on September 10, and the TPB is scheduled to adopt the CLRP and TIP amendments and conformity analysis at its October 21, 2009

meeting.

Comments may be provided to the TPB in writing, at the TPB web site: "mwcog.org/transportation," or during the public comment period provided prior to each TPB meeting.

### Proposed for Amendment to the 2009 Update to the Constrained Long-Range Transportation Plan (CLRP)

#### Return to L'Enfant: Modifications to I-395 between E St. and Massachusetts Ave. NW

This project will make modifications to three on/off ramps from and to I-395, including the closure of a seldom-used off-ramp to the 400 block of 3<sup>rd</sup> St. NW. Once the ramp modifications are complete, the portion of I-395 between E St. and Massachusetts Ave. NW will be decked over and re-developed with a 2.3 million square foot mix of office, residential, retail, and public space.

- a. Reconfigure the southbound on-ramp from  $3^{rd}$  St. and northbound off-ramp to  $2^{nd}$  St.
- b. Close southbound off-ramp from I-395 to the 400 block of  $3^{rd}$  St.
- c. Reconnect F St. between 2<sup>nd</sup> and 3<sup>rd</sup> Streets for vehicular, bicycle, and pedestrian traffic.
- d. Reconnect G St. between 2<sup>nd</sup> and 3<sup>rd</sup> Streets for bicycle and pedestrian traffic

Complete: 2014

Cost: \$27 million Source: Private funding

### GOVERNMENT OF THE DISTRICT OF COLUMBIA DISTRICT DEPARTMENT OF TRANSPORTATION

Transportation Policy and Planning Administration

April 23, 2009

Mr. Charles Jenkins Chair Transportation Planning Board Metropolitan Washington Council of Governments 777 North Capitol Street, NE – Suite 300 Washington, DC 20002

Dear Mr. Jenkins and members of the TPB,

The District Department of Transportation (DDOT) requests an amendment to the FY 2009 Constrained Long Range Plan (CLRP) and the FY 2010 – 2015 Transportation Improvement Program (TIP) to include roadway changes related to an air rights development project above I-395 between Massachusetts Avenue, NW on the north and E Street, NW on the south. The east-west boundaries of the project are 3<sup>rd</sup> Street, NW on the west and 2<sup>nd</sup> Street, NW on the east. (See attached site photo.)

At the present time, this segment of I-395 (referred to as the "Center Leg Freeway") sits in an open trench between the streets mentioned above. This trench currently interrupts both G Street, and F Street, NW. Thus there are about three city blocks between E Street and Massachusetts Avenue where there is no east-west surface transportation for vehicles, cyclists or pedestrians.

A private developer and the District of Columbia are proceeding with a proposal to develop the air rights above this trench. As part of this proposal, F Street will be reconnected for both vehicular and pedestrian traffic and G Street will be reconnected for pedestrians and cyclists. The developer has named the project "Return to L'Enfant" because it will partially recreate the street grid that was disrupted by the freeway's construction. If the project can pass the various legal and economic requirements and procedures for a project of this type, then the new development (commercial, retail and some residential) combined with the reconnected street grid will add vitality to this area while facilitating greater walking, cycling and transit use. Both the location of this development and its green design and construction will make it a premier example of "smart growth."

DDOT requests that the TPB follow a proposed schedule (attached) which was developed in cooperation with TPB staff for the purpose of introducing new projects into the FY 2009 CLRP and the FY 2010 – 2015 TIP. The proposed CLRP and TIP amendment sheets are attached for your review, with the understanding that the TPB would not take formal action on this proposal until June 17<sup>th</sup> when it would receive the results of the public comment period and decide whether to approve a scope of work for conformity testing associated with this proposed CLRP and TIP change.

DDOT appreciates your cooperation in this matter. If you have any questions regarding these proposed amendments, please contact me by e-mail at <u>rick.rybeck@dc.gov</u> or by phone at (202) 671-2325.

Sincerely,

Rick Rybeck

Deputy Associate Director

Rich Orferl

Transportation Policy & Planning Adminstration.

#### AIR QUALITY CONFORMITY ASSESSMENT AMENDMENTS TO THE 2009 CONSTRAINED LONG RANGE PLAN AND THE FY2010-2015 TRANSPORTATION IMPROVEMENT PROGRAM

#### PROPOSED SCHEDULE

May 1, 2009	TPB Technical Committee briefed on proposed amendments
May 14, 2009	Project descriptions and conformity analysis scope of work released for public comment
*May 20, 2009	TPB briefed on proposed amendments and conformity analysis scope of work
June 13, 2009	Public comment period ends
*June 17, 2009	TPB approves proposed project inputs and conformity analysis scope of work
*July 15, 2009	TPB scheduled to adopt 2009 CLRP and FY2010- 2015 TIP and conformity analysis
September 10, 2009	Draft conformity results for amendment released for public comment
*September 16, 2009	TPB briefed on draft conformity results
October 10, 2009	Public comment period ends
*October 21, 2009	TPB reviews public comments and responses to comments, and adopts conformity analysis, 2009 CLRP, and FY2010-2015 TIP amendments

<sup>\*</sup> TPB meeting

## TRANSPORTATION IMPROVEMENT PROGRAM FOR FY 2010-2015 PROJECT DESCRIPTION FORM

#### **BASIC PROJECT INFORMATION**

- Submitting Agency: District Department of Transportation (DDOT) Agency Project ID: \_\_\_\_\_\_
- 2. Project Name (from CLRP Project): Return to L'Enfant
- 3. Phase Name:

		Prefix	Route	Name	Modifier
4.	Facility:	1	395	Center Leg Freeway	
5.	From (_ at):			Massachusetts Avenue, NW	
6.	To:			E St., NW (Between 2 <sup>nd</sup> and 3 <sup>rd</sup> Streets, NW)	

- 7. Agency Phase ID:
- 8. Description:

Return to L'Enfant is a planned unit development (PUD) encompassing the I-395 air rights between E Street and Massachusetts Avenue NW, and available terra firma pieces between 3rd Street NW and I-395. The projected development will cover the sunken I-395 highway with three city blocks and two new Rights of Way (ROWs) at G and F Streets NW, by means of an at-grade platform above the highway. The city blocks will have a total of 2.3 million square feet of office, residential, retail, and public space, with parking garage and service corridor below grade. By creating new building walls along the edges of G and F Streets, the development will demarcate and establish the L'Enfant plan vistas and reconnect the city grid by adding pedestrian and vehicular corridors.

Key transportation components of the project include the following items (noted by letter when a question is applicable to individual aspects; otherwise, applicable to the entire project noted with "X"):

- A. Closure of the I-395 Southbound Exit Ramp to the 400 block of 3rd Street, NW
- **B.** Reconnection of F Street, NW between 2nd and 3rd Streets, for vehicular, pedestrian and bicycle traffic
- C. Reconnection of G Street, NW between 2nd and 3rd Streets, for bicycle and pedestrian traffic
- D. Reconfiguration of the I-395 Southbound Entrance Ramp from the 600 block of 3<sup>rd</sup> Street, NW
- E. Reconfiguration of the I-395 Northbound Exit Ramp to the 500 block of 2nd Street, NW

			Facility Type		Number of Lanes

#### CLRP PROJECT DESCRIPTION FORM

- 18. Bicycle or Pedestrian Accommodations: <u>("D", and "E")</u>Not Included; <u>("B" only)</u> Included; <u>("C" only)</u> Primarily a Bike/Ped Project; <u>("A" only)</u> N/A
- 19. Jurisdictions: District of Columbia, Ward 6
- 20. Total cost (in Thousands): preliminary estimate \$27,000 ("A"-"E" design and construction)
- 21. Remaining cost (in Thousands):
- 22. Funding Sources: \_ Federal; \_ State; \_ Local; X Private; \_ Bonds; \_ Other

#### SAFETEA-LU PLANNING FACTORS

- 23. Please identify any and all planning factors that are addressed by this project:
  - a. X Support the **economic vitality** of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency.
  - b. X Increase the **safety** of the transportation system for all motorized and non-motorized users.
    - i. Is this project being proposed specifically to address a safety issue? \_ Yes; X No
    - ii. If yes, briefly describe (in quantifiable terms, where possible) the nature of the safety problem:
  - c. <u>"B" and "C" only</u> Increase the ability of the transportation system to support **homeland security** and to safeguard the personal security of all motorized and non-motorized users.
  - d. "B" and "C" only Increase accessibility and mobility of people and freight.
  - e. X Protect and enhance the **environment**, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns.
  - f. <u>"B" and "C" only</u> Enhance the **integration and connectivity** of the transportation system, across and between modes, for people and freight.
  - g. <u>"B", "C" and "D"</u> Promote efficient system management and operation.
  - h. "B", "C", "D" and "E" Emphasize the preservation of the existing transportation system.

#### **ENVIRONMENTAL MITIGATION**

- 24. Have any potential mitigation activities been identified for this project? X Yes; No
  - a. If yes, what types of mitigation activities have been identified?
    - X Air Quality; \_ Floodplains; X Socioeconomics; \_ Geology, Soils and Groundwater; Vibrations;
    - X Energy; X Noise; X Surface Water; \_ Hazardous and Contaminated Materials; \_ Wetlands

#### CONGESTION MANAGEMENT INFORMATION

- 25. Do traffic congestion conditions necessitate the proposed project? \_ Yes; X No
- a. If so, is the congestion recurring or non-recurring? \_ Recurring; \_ Non-recurring
- b. If the congestion is on another facility, please identify it:
- c. What is the measured or estimated Level of Service on this facility? \_\_\_\_; \_ Measured; \_ Estimated
- 26. Is this a capacity-increasing project on a limited access highway or other principal arterial? \_ Yes; X No
- a. If yes, does this project require a Congestion Management Documentation form under the given criteria (see page 34 of the *Call for Projects* document)? \_ Yes; <u>Click here to access a Congestion Management Documentation Form.</u>
- b. If not, please identify the criteria that exempt the project here:
  - X The number of lane-miles added to the highway system by the project totals less than 1 lane-mile
  - <u>"B"</u>, "C" and "D" The project is an intersection reconstruction or other traffic engineering improvement, including replacement of an at-grade intersection with an interchange
  - \_ The project will not allow motor vehicles, such as a bicycle or pedestrian facility
  - \_ The project consists of preliminary studies or engineering only, and is not funded for construction

#### **CLRP PROJECT DESCRIPTION FORM**

- \_ The project received NEPA approval on or before April 6, 1992
- \_ The project was already under construction on or before September 30, 1997, or construction funds were already committed in the FY98-03 TIP.
- \_ The construction costs for the project are less than \$5 million.
- \_ The project will not use any Federal funds in any phase of development or construction.

#### **INTELLIGENT TRANSPORTATION SYSTEMS**

- 27. Is this an Intelligent Transportation Systems (ITS) project as defined in federal law and regulation, and therefore subject to Federal Rule 940 Requirements? \_ Yes; X No
  - a. If yes, what is the status of the systems engineering analysis compliant with Federal Rule 940 for the project? \_ Not Started; \_ Ongoing, not complete; \_ Complete
  - b. Under which Architecture:
    - \_ DC, Maryland or Virginia State Architecture
    - \_ WMATA Architecture
    - \_ COG/TPB Regional ITS Architecture
    - \_ Other, please specify:
- 28. Completed Date:
- 29. \_ Project is being withdrawn from the CLRP.
- 30. Withdrawn Date:
