TRIPSHOT

On-Demand Transportation

Tripshot's fully featured transportation software enables you to launch an on-demand solution with minimal up-front costs.

Ride Requests

Tripshot's intuitive mobile app and web interface makes it easy to request a ride.

Built-in traffic data and GPS give accurate ETAs for riders and real-time visibility for managers.
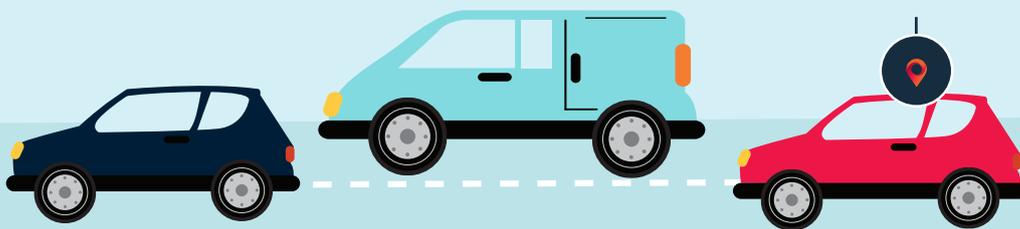

Real-Time Reporting

See all vehicles, riders, and drivers within a single unified dashboard. Always connected and all in real-time so you can manage your fleet efficiently.

Automated Dispatch

Riders have shorter wait times as vehicles are intelligently assigned based on proximity, current heading, capacity, and customizable matching logic.

TRIPSHOT

Ride Smart with Tripshot Pay

Tripshot Pay helps commuters travel easier by providing a smart way to purchase tickets. Riders simply top up their wallet balance in the Tripshot app, then pay for tickets directly from their phone as they board their ride. Simple, secure, cashless.

1. Add Balance to Your Wallet

Your wallet is used to buy tickets and is stored within the Tripshot app. Add balance to your wallet securely using Apple Pay, Android Pay or debit / credit card and you're ready to go.

2. Purchase A Ticket

Riders purchase tickets using their wallet balance by either scanning the vehicle's QR code, or via Bluetooth connection to the vehicle's Tripshot Driver app.

3. Show Your Boarding Code

Purchased tickets display as unique and clearly identifiable boarding codes, which riders present to the driver for quick visual validation as they board.

TRIPSHOT

Vanpool & Carpool Made Simple

Tripshot makes it easy for companies to offer vanpool & carpool to employees as an affordable commute alternative. Riders simply use Tripshot's intuitive Rider App to organize their rideshare, while companies get complete visibility into usage, with real-time reporting.

✔ Offer subsidies to employees
✔ Relax on the way to work
✔ Meet new people
✔ Help retain & attract talent
✔ Everybody saves money
✔ Reduce traffic & parking congestion
✔ Better for the environment

Validation & Visibility

No need to worry about tracking rideshare usage - it's all built-in for seamless reporting and accountability.

BOARDING CODE
B30001
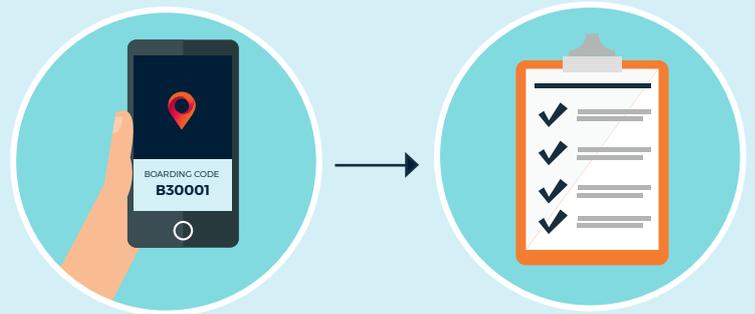

Commuting is Better Together

Vanpools and Carpools reduce traffic congestion and the need for parking spaces. It's better for the environment, less stressful for commuters, and affordable for everyone. It's a win-win.
