METRO SAFETRACK TRAVEL DISRUPTIONS ALERT

Metro trains and platforms are expected to be extremely crowded during peak travel periods. Metrorail riders who have the ability to do so are strongly recommended to make other travel arrangements during disruption periods.

Who: Metrorail riders.

What: Metro SafeTrack severe service disruptions. Metro lines affected by SafeTrack work are expected to be extremely crowded, especially during rush hour. Expect significantly longer wait times. When: 13 days between June 4 and June 16, 2016.

Where: Orange and Silver Lines. Metro will be running continuous single tracking at all times between the Ballston and East Falls Church stations. Orange Line trains between Vienna and Ballston will only operate every 18 minutes. Silver Line trains will operate every 18 minutes.

Why: Metro is performing accelerated track work on certain sections of the system for weeks at a time, in order to improve safety and reliability.

Note: Stations that will require complete closure for a period of time will have Metrobus shuttles in place to bridge gaps in service. **Other Travel Options:**

Transit

Metrobus

Regional Public Transportation Subcommittee

- Overview:
 - Mission of providing a permanent process for regional coordination of public transportation planning
- Activities related to SafeTrack:
 - Forum for information exchange
 - Focus on actions and experiences of the individual jurisdictions' public transportation agencies
 - Observations / after-action report discussion
 - Help provide information for monthly updates to the TPB

Bicycle and Pedestrian Subcommittee

- Overview:
 - Mission of advising TPB on bicycle/pedestrian planning, stakeholder outreach, and best practices
- Activities related to SafeTrack:
 - Advise on encouraging bicycling/walking where they are viable alternatives
 - Coordinate with Commuter Connections; Washington Area Bicyclist Association; Capital Bikeshare
 - Share actions and experiences of the individual jurisdictions regarding bicycling and walking
 - Help provide information for monthly updates to the TPB

MOITS Subcommittee

- Overview:
 - Advises TPB on transportation operations and related technologies
- Activities related to SafeTrack:
 - Compile information on individual jurisdictions' traffic management plans
 - Analyze roadway speed (vehicle probe) data to look at before/during/after roadway impacts
 - Limited to only those roads/locations where data are available
 - Observations / after-action report discussion
 - Lessons learned for early corridors can advise later corridors
 - Help provide information for monthly updates to the TPB

Emergency Transportation Committee

- Overview:
 - Also referred to as Regional Emergency Support Function 1 (RESF-1)
 - Advises COG public safety process on transportation aspects of planning for catastrophic/declared emergencies
- Activities related to SafeTrack:
 - Forum for discussion of information related to emergency preparedness transit has long been a frequent focus of RESF-1
 - Focus on actions and experiences of the individual jurisdictions' transportation and public safety agencies
 - Observations / after-action report discussion

MATOC

- Overview:
 - Operational partnership of the region's major transportation agencies focused on real-time information sharing; TPB is a member
- Activities related to SafeTrack:
 - Ongoing MATOC monitoring and notifications on major roadway incidents
 - MATOC's Transit Task Force convenes the region's transit bus operators for coordinating real-time response to incidents when needed

Monthly Reporting to TPB

- TPB staff in conjunction with subcommittee will compile information on transportation plans, responses, and outcomes related to SafeTrack
 - Commuter Connections/TDM
 - Public Information and Outreach
 - Public transportation
 - Bicycling and walking
 - Transportation management/operations/ITS
 - Emergency transportation planning
 - MATOC
