

Draft List of Controls for PM2.5 SIP

OTB/OTW Measures

- See attached list.

Proposed Measures for Supplemental Control Analysis/Weight of Evidence

Existing:

Clean Air Partners
High Electricity Demand Day Initiative
Telecommuting Initiative
Tree Canopy Programs

Potential:

CAIR Plus
Distributed Generation Rule
Industrial, Commercial, and Institutional Boiler Rule
Performance Contracting: Diesel Particulate Reductions
Idling Reduction
Airport Initiatives
Heavy Duty I/M, Smoke Testing
Low-Sulfur Home Heating Oil

Voluntary Bundle

Existing:

Wind Energy Purchases
Building Energy Efficiency
LED Traffic Signal Retrofits
Clean Energy Rewards Program
Renewable Portfolio Standards
Remote Sensing Program

Potential:

Early Adoption of Low-Sulfur Fuel for Off-Road Applications
Dust Suppression for Construction

Contingency Measures

Existing:

Tier 2 Motor Vehicle Standards (NO_x)
Non-Road Reductions (NO_x)

Potential:

Healthy Air Act/CAIR (SO₂)
Low-Sulfur Fuel for On-Road Applications (SO₂)
Low-Sulfur Fuel for Off-Road Applications (SO₂)
