

OLDCC Military Installation Resilience Review (MIRR) Project – Naval Support Facility Indian Head and the Surrounding Community

Beth A. Groth
Climate Resilience and Sustainability Officer
Charles County Government

OLDCC MIRR Project

Project Goals

- Identify climate risks and establish mitigation strategies
- Strengthen ongoing engagement between the Town, the County, and NSFIIH

Process

- Leadership development
- Research and literature review
- Climate risk and vulnerability analysis, including stakeholder interviews
- Final recommendations for coordinated action

Initial Findings

- Long-term resilience will require County, Town, Base collaboration
- Resilience as an opportunity: address manageable acute climate threats, coupled with economic and social resilience needs and issues
