April 2018

# Tree Canopy Change in Two Suburban Counties

## Prince George's County: 2014 - 2018

### TC Loss (7,673 acres):

- 59% of loss change occurred within forest or wetlands
- 41% of loss occurred in developed areas

### TC Gain (518 acres):

- 16% of gain occurred within forest or wetlands
  - shrub/scrub; edge of forest
- 54% of gain occurred in developed areas
- 29% of gain occurred on agricultural lands

## Anne Arundel County: 2014 - 2018

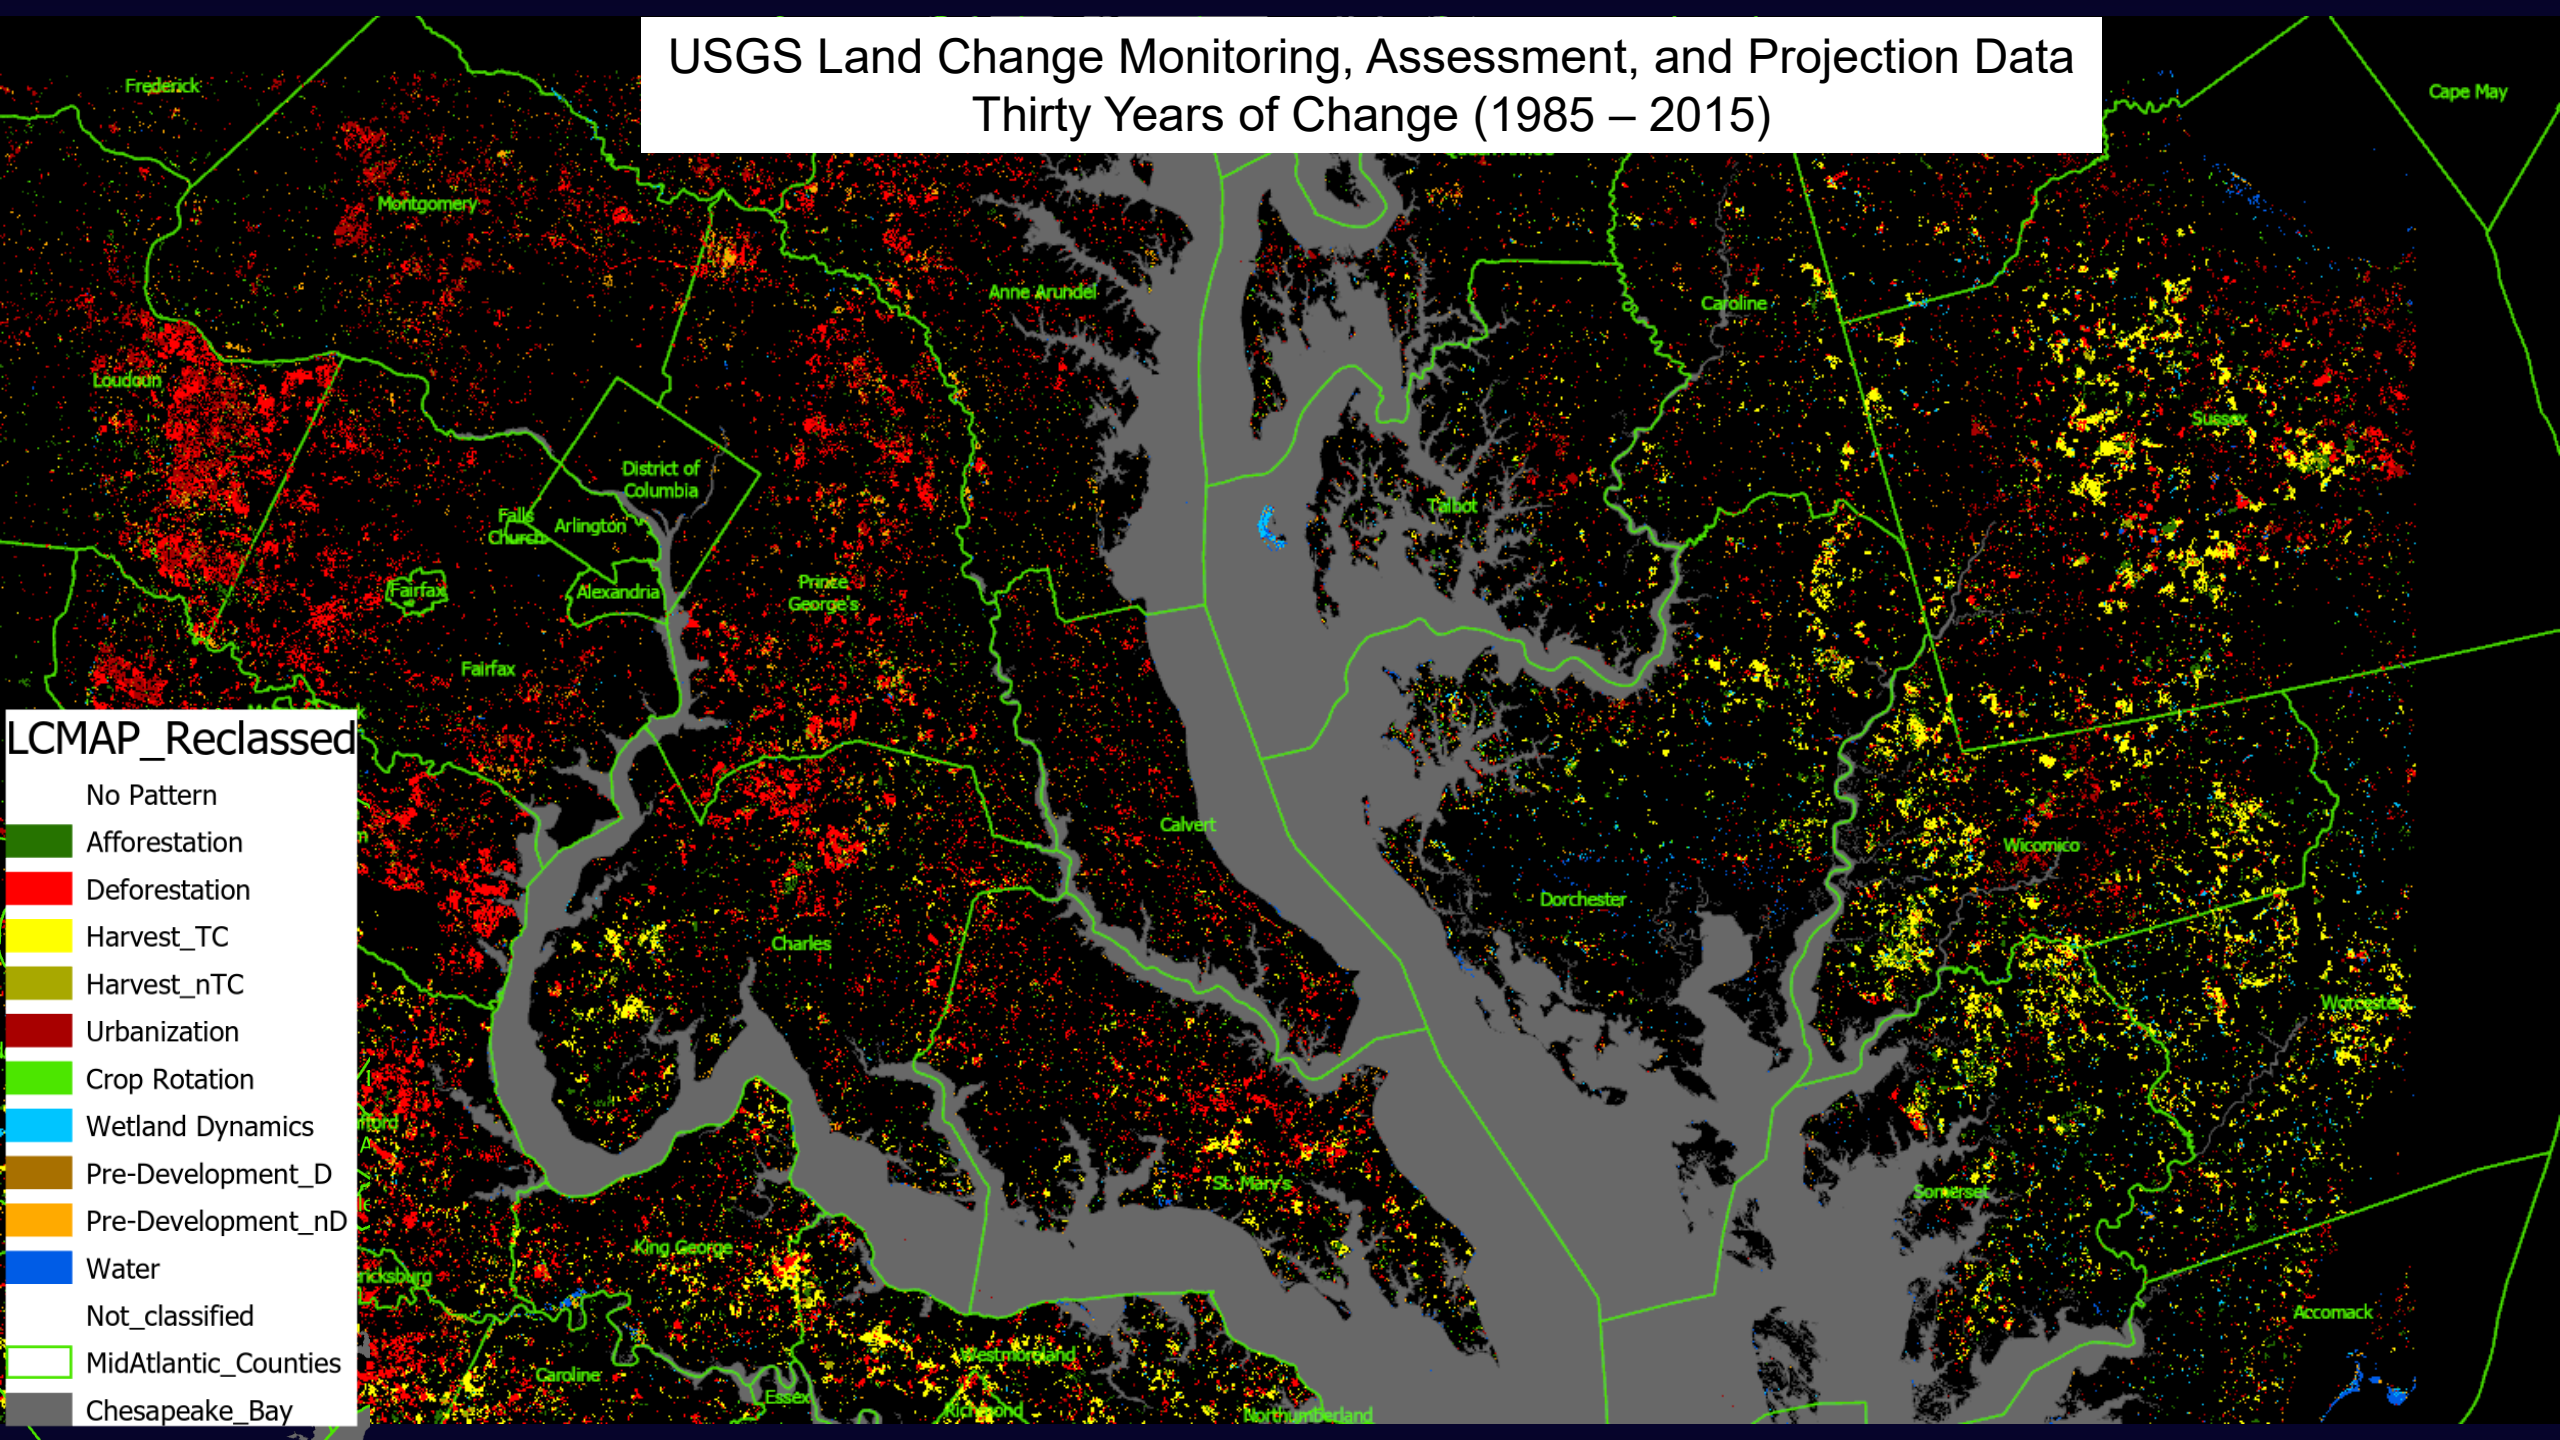

### TC Loss (2,544 acres):

- 57% of loss change occurred within forest or wetlands
- 42% of loss occurred in developed areas

### TC Gain (188 acres):

- 9% of gain occurred within forest or wetlands
  - shrub/scrub; edge of forest
- 55% of gain occurred in developed areas
- 35% of gain occurred on agricultural lands

# Summary

Under a 6-year Cooperative Agreement with the Chesapeake Bay Program, the Chesapeake Conservancy (CC) and University of Vermont (UVM) are producing 1-meter resolution land cover datasets for the years 2013/14, 2017/18, 2021/22 using the best available LiDAR and NAIP aerial imagery for the Bay watershed (including all of Maryland).

The CC and UVM are translating 12-classes of land cover into 58 of land use using ~15 ancillary datasets for each county.

The CC and UMBC are developing 1-meter resolution stream and ditch data, complementing the 1-meter resolution water bodies identified in the land cover data.

USGS has developed a GIS tool to extract channel width, height, bank angle, and floodplain width and volumes from LiDAR.

# Chesapeake Bay 1-Meter Resolution Release Dates

Land cover (12 classes, 1-meter):

- 2013/14 (available now- <https://chesapeakeconservancy.org/conservation-innovation-center/high-resolution-data/land-cover-data-project/>)
- 2017/18 (summer 2021)
- 2021/22 (summer 2024)

Land use (16 classes, 1-meter):

- 2013/14 (available now- <https://chesapeakeconservancy.org/conservation-innovation-center/high-resolution-data/land-use-data-project/>)

Land use (13 classes, 10-meter):

- 2013/14 (available now- <https://chesapeake.usgs.gov/phase6/map/#map=7/-8582732.74/4851421.17/0.0/0,4>)

Land use (58 classes):

- 2013/14 (summer 2021)
- 2017/18 (summer 2021)
- 2021/22 (summer 2024)

Streams/ditches

- Draft (summer 2021)
- Final (summer 2023)

Stream channel and floodplain attributes (FACET)

- Version 1 (available now- <https://www.sciencebase.gov/catalog/item/5cae39c3e4b0c3b00654cf57>)
