Dear Mr. Grady:

This letter transmits the following information in response to the letter request of September 28, 2004, from Ms. Amy L. Horner of Sidley Austin Brown & Wood, LLP:

1. Draft highway and transit networks, input, control, support and TP+ script files and software to run the demographic sub-models and accomplish trip generation, trip distribution, mode choice and trip assignment using the COG/TPB Travel Forecasting Model Version 2.1/TP+, (DRAFT #50) for three time periods for the simulation years of 1994, 2000 and 2030. The data are contained on a CD-R labeled "CGV21D_50X".

Please note that generic file names are used in these model runs, so it is recommended that data for each simulation year be kept in separate directories.

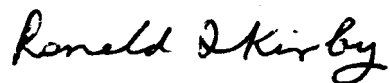

2. Copies of the following documents
 - a. "COG/TPB Travel Forecasting Model Version 2.1 D Draft #50 User's Guide (DRAFT)" dated September 17, 2004.
 - b. "COG/TPB Travel Forecasting Model Version 2.1 D Draft #50 Calibration Report (DRAFT)" dated September 17, 2004.
 - c. A memorandum to the files by Ron Milone, dated September 21, 2004, titled "Transmittal of Version 2.1 D DRAFT # 50 Model."

The post-processor model with supporting documentation and inputs to the Mobile6 Model will be available at the October 1, 2004, TPB Technical Committee Meeting.
