

Regional Green Building Policies *and* Programs Overview

The Intergovernmental Green Building Group

***“Promoting cooperation on green building issues
in the
Metropolitan Washington region”***

October 2008

This document is developed and maintained by the *Intergovernmental Green Building Group* and is used as a peer-to-peer resource guide.

COG Regional Green Building Policies and Programs Overview

Leading by example, about 60 percent of the COG membership has green building policies and programs in place for public facilities and/or private development.

	<ul style="list-style-type: none"> • Initial Energy Performance projects in progress; more to follow. • Landfill gas from Sandy Hill Landfill is used at NASA as boiler fuel to heat 31 buildings. • Landfill gas utilized to produce electricity which powers County Correctional facility and exports 4.4 MW to the grid. The environmental benefits from producing electricity from County landfill gas are equal to: <ul style="list-style-type: none"> ○ Planting 63,000 acres of pine or fir forest ○ Removing 51,000 passenger cars from our roads ○ Burning 1,500 railcars worth of coal. 	
<p>City of Rockville, MD www.rockvillemd.gov</p> <p>Contact: Nate Wall nwall@rockvillemd.gov</p>	<p>City Staff are currently drafting guidelines for public facilities to be released for public comment concurrently with the green building program for private development in Fall 2008. It is anticipated that public facilities will have both LEED and ENERGY STAR requirements.</p>	<p>Rockville is in the final stages of approving a new “greener” zoning ordinance, as well as updating the City’s building codes. The building code update includes elements from the “30% Solution” to improve energy efficiency in all buildings, as well as an existing buildings code to facilitate the reuse of existing buildings rather than demolition and new construction.</p> <p>The City’s Environment Commission has made recommendations to the Mayor and City Council on components of Rockville’s green building program beyond the “greener” building codes. City Staff are currently drafting the program for public release in Fall 2008. After public comment, the program is expected to be adopted in early 2009.</p>
