#### Shared Ride Requirements for Taxi Companies

Federal rules require that private taxi companies must offer "shared-ride" service in order to be eligible for Enhanced Mobility Operating, Capital equipment and/or Preventative Maintenance funding. The shared-ride requirement <u>does not</u> apply to applications for accessible taxi <u>vehicles</u> <u>only</u>. A private taxi company contracting under another eligible entity is eligible for all funding categories.

FTA defines shared-ride as "two or more passengers in the same vehicle who are otherwise not traveling together." Local statutes/regulations, or company policy may determine whether a taxi company provides shared-ride or exclusive-ride service. Not every trip has to be shared-ride, but it must be included in the service provided by the taxi company.

A taxi company requesting funding directly from COG for Operating, Capital equipment, and/or Preventive Maintenance must attach proper documentation describing their shared-ride policy in the upload box below

#### Vehicle Insurance Requirements\*

Insurance requirements for vehicles received under an Enhanced Mobility grant are \$1.5 million in auto and \$1.5 million in general liability. COG would need to be named on your agency's insurance policy as additional insured. There are <u>no</u> exceptions.

Vehicle insurance is an eligible operating expense under the Enhanced Mobility program. If assistance is needed in covering the costs to meet COG's vehicle insurance requirements, you may submit a line item for vehicle insurance in an operating budget for consideration. If approved, 50% of the cost would be covered by Federal funds and the remaining 50% would need to be covered by matching funds.

I acknowledge that our agency will be able to provide the required level of insurance for vehicles acquired under this grant.

## III. For State and Local Governments

The Enhanced Mobility grant program is divided into two categories of funding, described below. If your agency is a state or local government, the application is eligible for the 45% of funding category. However, under certain conditions state or local governments can also qualify for the 55% of funding category if documentation is provided. In this section, you can provide that documentation so that the Selection Committee can consider the application for both categories.

#### The Two Categories of Enhanced Mobility Grant Funding

- 1. Capital Projects for Non-Profits or Qualifying Local Governments (55%):
  - Your application is in this category if it is for a capital or mobility management project AND your agency is a non-profit, or a State or Local government approved by the state to coordinate services or can certify that there are no nonprofits readily available to provide the service.
- 2. Operating or Capital Projects for All Eligible Subrecipients (45%):
  - If your agency is a Non-Profit organization, a State or local government, a transit agency, or a private operator of public transportation and you are applying for an eligible Capital or Operating project, your application falls into this category.

#### Qualifying State or Local Government and State Certification

If your agency is a State or Local government entity applying for the 55 percent category of funds, please describe what State agency has given approval or a mandate to coordinate services, OR describe the lack of non-profits in the area to carry out the project proposal. In the case of the former, a letter from the state regarding your agency's role to coordinate services is required by the time of application.

#### Priority Project Narrative\*

Describe how your application responds to one or more of the Priority Projects.

**<u>NOTE</u>**: If your project does not respond to one or more of the Priority Projects it will still be considered, but will score less under the Responsiveness to TPB's Coordinated Human Service Transportation Plan criteria.

#### B. Responsiveness to Strategies in the Coordinated Plan (up to 8 points)\*

In addition to how well the application responds to the priority projects, points will be awarded based on how many strategies in the Coordinated Plan the project application addresses.

In order to be eligible for additional points there must be a <u>clear</u> connection between the proposed activities and the specific Strategies. Thoroughly review and select which Strategies for Improved Service and Coordination your application responds to:

#### Choices

Expand Availability & Coordination of Transportation Options Increase Awareness of Existing Transportation Options Improve Accessibility of Transportation Options Make Transportation Options More Affordable & Sustainable

#### Strategies Narrative\*

Describe how one or more of the Strategies for Improved Service and Coordination apply to your project.

Character Limit: 1500

#### Institutional Capacity to Manage and Administer an FTA Grant (20 points)

This criterion considers the availability of sufficient management, staff and resources to administer a Federal Transit Administration grant, comply with Federal rules, such as those outlined in "Federal Requirements" section, and implement the grant in the Work Plan timeline. It also considers financial stability and if applicable, past grant performance.

#### A. Agency Capacity\*

#### B) Marketing/Program Outreach\*

Describe how the project will be promoted to Older Adults and/or People with Disabilities. *Character Limit: 750* 

V. Budget

**Budget Parameters** 

Applicants can apply for any combination of operating, capital and mobility management funds. Budgets should be for a two-year period, even for projects that include preventive maintenance and/or operating expenses for vehicles that are a part of the same application. The additional time required to accommodate vehicle order and delivery will be addressed in the length of the contract.

- The required **application minimum is \$150,000** (which includes the Federal and match amounts over a two-year period). Applications for amounts less than \$150,000 will not be considered.
- Use whole numbers. Round Federal down and Match up.
- If only applying for one set of funds (e.g. Capital only) please still upload a blank budget for the funds NOT applying for (.e.g. operating). since both budget templates are a required field).

To ensure that prices are fair and reasonable, applicants must obtain an **independent cost estimate (ICE)** for any item in their Capital or Operating budget at \$250,000 or more (other than vehicles procured by COG):

- Examples of applicable line items include software, dispatch or GPS systems, construction, evaluation or marketing contractors, website development, etc. An ICE is not required for services provided in-house by agency staff but a note should be added to the budget justification section to explain why an ICE is not included for that line item.
- <u>NOTE</u>: If awarded, the vendor chosen by the grantee to do the service CANNOT be the same as the vendor that provides the ICE.

See COG's <u>Procurement Procedures</u> for more information.

Sole source justifications may be considered when supplies or services are available from only one responsible source, and no other supplies or services will satisfy its requirements. Sole source requests require documentation on the lack of other vendors to do the work, and an explanation how the preferred vendor is uniquely qualified.

Per Federal Transit Administration (FTA) requirements, a Cost Analysis must be completed when price competition is inadequate and/or when a sole source is available.

<u>If awarded</u> and seeking sole source for a procurement outlined in your application budget, you will be required to complete and submit a Sole Source Justification Form to COG for approval before proceeding. This form is NOT required at time of application.
