1200 Pennsylvania Avenue, NW  
Washington, DC 20460

Docket ID No. EPA-HQ-OAR-2009-0171

To: U.S. Environmental Protection Agency

I am writing on behalf of the Metropolitan Washington Air Quality Committee (MWAQC) regarding EPA's Proposed Endangerment and Cause or Contribute Findings for Greenhouse Gases under the Clean Air Act signed on April 17, 2009. MWAQC is certified by the governors of Maryland and Virginia and the mayor of the District of Columbia to develop regional air pollution control strategies for the Washington, DC-MD-VA region.

MWAQC supports the concept of a national program to reduce the risks from climate change and reduce greenhouse gases. Maryland, Virginia and the District of Columbia have all initiated climate change initiatives, and the region worked together this past year to develop a regional climate plan. While local actions are vital, a national and international solution to the reduction of greenhouse gases is essential. MWAQC believes the proposed endangerment finding is a step in the right direction at the federal level.

The Metropolitan Washington Council of Governments (MWCOG)<sup>1</sup> has formed a Climate, Energy, and Environment Policy Committee (CEEPC) to handle policy issues related to greenhouse gases and climate change in the metropolitan Washington region. We trust that CEEPC members will look forward to close consultation and cooperation with the USEPA, USDOT and other agencies as appropriate on the development of rules and guidance necessary to implement the finding.

Sincerely, Phil Mendelson, Chair  
Metropolitan Washington Air Quality Committee  
COMMITTEE REVIEW DRAFT NOT FOR PUBLIC RELEASE

---

<sup>1</sup> MWCOG is a regional organization of Washington area local governments. COG is comprised of 21 local governments surrounding our nation's capital, plus area members of the Maryland and Virginia legislatures, the U.S. Senate, and the U.S. House of Representatives.
