

Washington Metropolitan Area Transit Authority

# Technologies and Programs that Encourage Metrobus Ridership

Transportation Planning Board Technical Committee

April 5, 2013

DRAFT

# Metro Supports Bus Ridership by...

- Use advanced technology to provide customer information & enhance bus operations
- Conduct periodic planning studies to evaluate and enhance bus service
- Engage public to access and improve service quality

DRAFT

# Customer Information System Technologies

- Real-time bus arrival predictions
  - Customer information server interfaced to CAD/AVL to receive bus schedule and adherence information
  - Customers get bus arrival predictions through websites, text messages, voice calls, and smart phones
  - NextBus receives more than 3M inquiries each month; 30% of trips

DRAFT

# Customer Information System Technologies

- Customer Information System Signage
  - 50 signs distributed throughout the operational area displaying bus arrival information
  - Plans to install hundreds of LCD and LED signs at bus shelters and transit centers

# On-Board & Back-End Technologies that Support Metrobus Operations

- In process of implementing Consolidated Ancillary Bus Equipment and Fixed-end Systems project
  - Replaces on-board technologies and back-end CAD/AVL system in the bus operations control center

## Back-End

AVL- incident & on-time performance monitoring

## On-Board

Next stop and public service announcement, destination signs, AVL, automatic passenger counters, vehicle health monitors

# Improved Operations with Metrobus System Technology

- Currently 12 buses equipped with transit signal priority technology
  - Operation on Georgia Avenue/7<sup>th</sup> Street MetroExtra 79 service
- New transit signal priority installation
  - Funded by TPB TIGER Grant
  - VA Rt. 7 and up to six additional corridors

Recommended TSP locations in the Downtown core

# Additional Efforts that Encourage Metrobus Ridership

- Bus driver training
- On-board cameras
- New Shepherd Parkway facility
- Expanded service
- Express service
- User surveys
- New bus maps

DRAFT

# Metrobus Planning, Development, and Implementation

- Regional Bus Study
- Priority Corridor Network
- Bus Priority Studies
  - H&I Streets Bus Lane Study
  - Crystal City/Potomac Yard Transit Improvement Project
- Periodic Service Evaluation Studies

DRAFT

# Challenges

- Traffic congestion/reliability
- Increased dwell times
- Funding fleet expansion
- Right-of-Way issues
- Meeting demand

Questions?

DRAFT

# Appendix

DRAFT

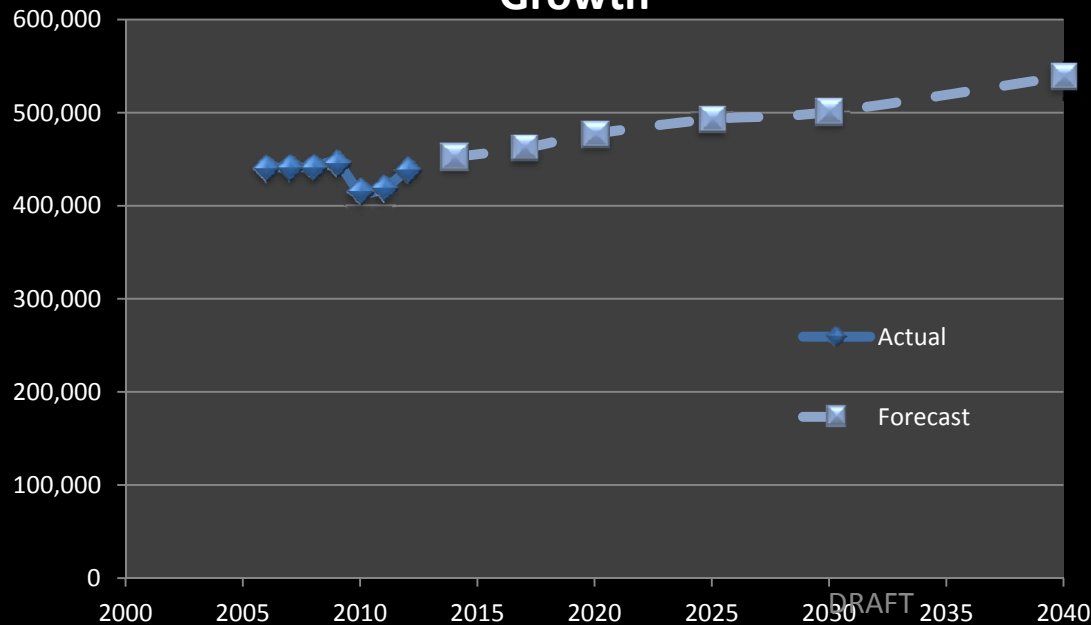

# Metrobus Serves the Region

## 2012 Metrobus Ridership

Average Weekday Ridership	438,000
Average Weekend Ridership	366,600
Annual Total Ridership	130,890,000

Average Daily Metrobus Ridership and Projected Growth

- 1,482 buses in active revenue fleet
- 174 lines in DC, MD, and VA
- 315 routes; 1/3 in each jurisdiction
- 11,475 bus stops
- 2,397 bus shelters (595 Metro-owned)

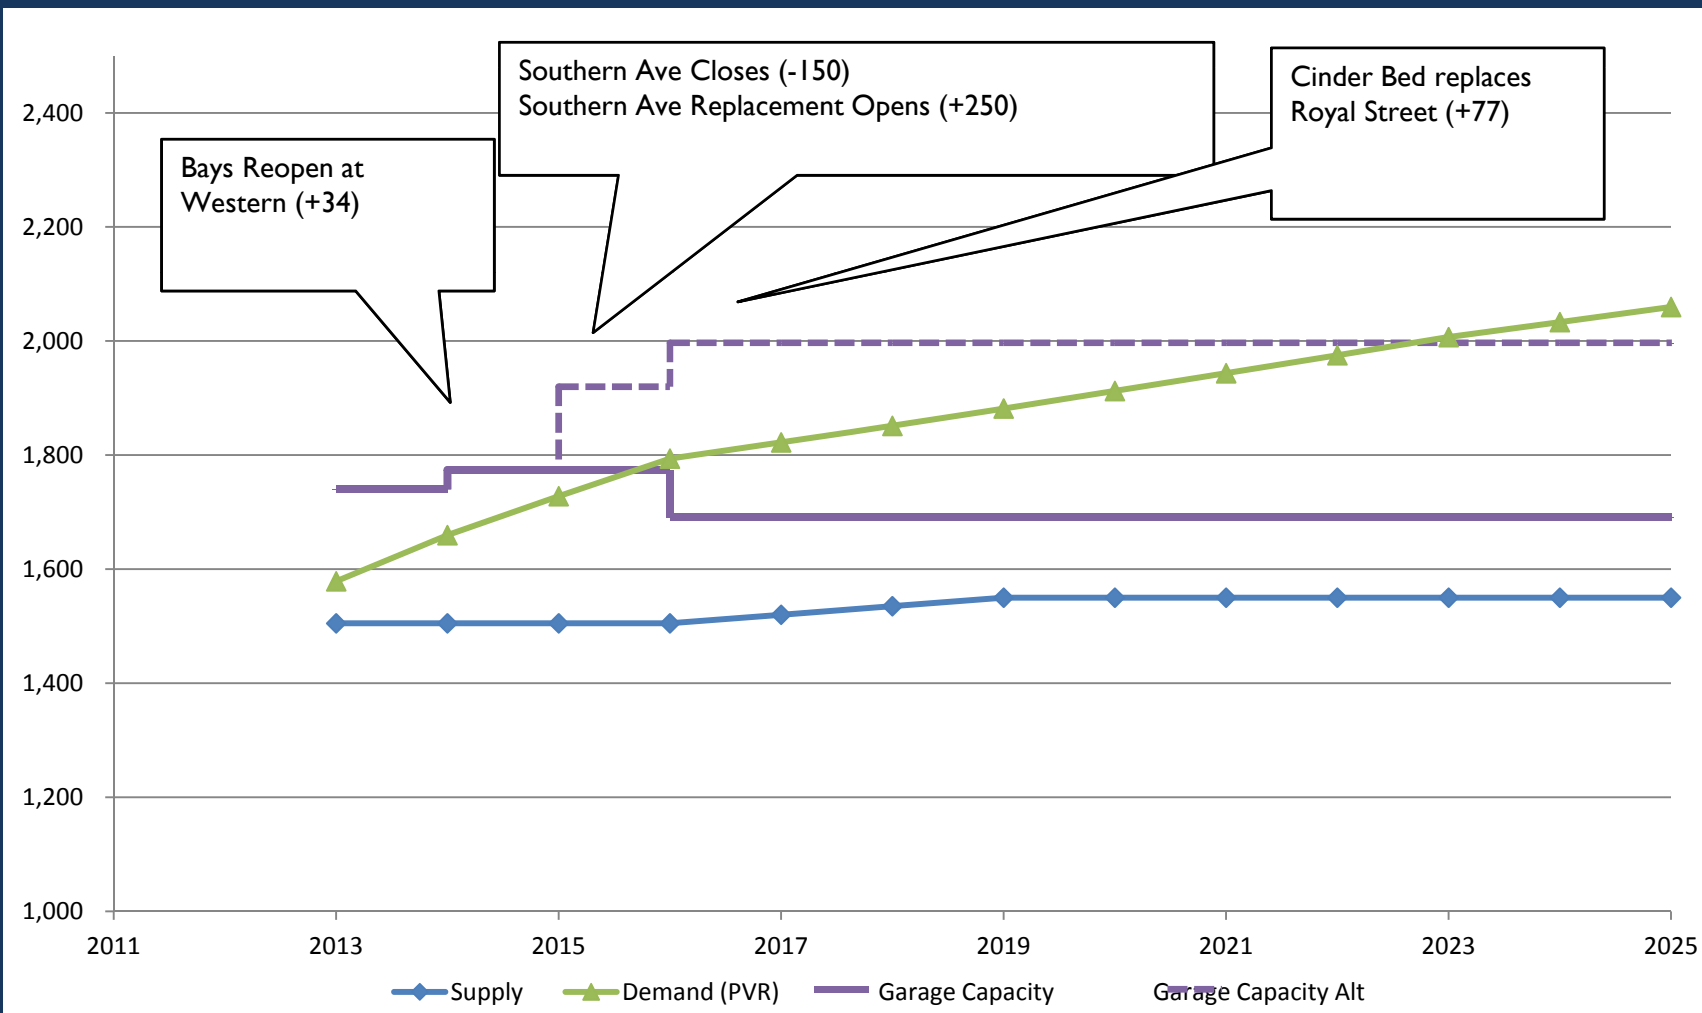

# Metrobus Service Compared to Others

	<b>Service Area (UZA Sq Miles)</b>	<b>Region's Population (2010 Census UZA)</b>	<b>Bus Ridership (unlinked trips)</b>
<b>WMATA</b>	<b>1,322</b>	<b>4,586,770</b>	<b>128,444,000</b>
<b>NYC Transit</b>	<b>3,450</b>	<b>18,351,295</b>	<b>829,180,000</b>
<b>BART</b>	<b>524 (SF/Oak)</b>	<b>3,281,212</b>	<b>n/a</b>
<b>CTA</b>	<b>2,443</b>	<b>8,608,208</b>	<b>306,024,000</b>
<b>MARTA</b>	<b>2,645</b>	<b>4,515,419</b>	<b>68,009,000</b>
<b>MBTA</b>	<b>1,873</b>	<b>4,181,019</b>	<b>108,128,000</b>
