**RE: Maryland Technical Service Account
Request for Version 2.1 D, Draft 50 Model
Set**

Dear Mr. Kirby:

The Maryland-National Capital Park and Planning Commission is updating its travel demand forecasting models in Prince George's and Montgomery Counties and is seeking to utilize the most recent model set as a regional data reference for the updated models. It is our understanding that the Version 2.1D, Draft 50 model set has been provided to Mr. Eric Graye of the Commission's Montgomery County Department of Park and Planning under the Maryland Technical Service Account. Mr. Graye informed us that a copy of these files could be furnished to the Commission's Prince George's County Planning Department by MWCOG on CD-ROM at no additional cost.

Please provide us with the data files, driver files, and documentation needed to run the MWCOG Version 2.1D, Draft 50 model set on a TP+ software platform on CD-ROM.:
