

TRIPSHOT

Optimize The Commute

RIDERS

Optimize The Commute

Riders need real time visibility of commute options

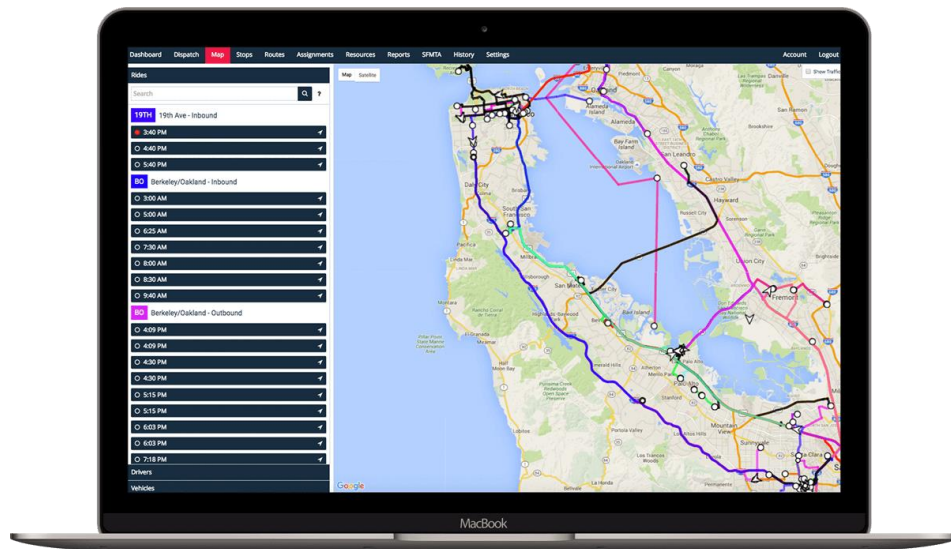

- **Single app** (iOS and Android) for Fixed Route, On Demand, Vanpool/Carpool Validation, Parking, and Bike Cage access
- **Multi-modal** Trip Planner to easily find ride options
- Access to **real-time ETAs** and vehicle location
- Track transportation usage via **Activity Tracker**
- **Increase Ridership** and employee productivity

SHUTTLE OPERATORS / TRANSIT MGMT

Optimize The Commute

Complete visibility and control for efficient fleet and transit operations.

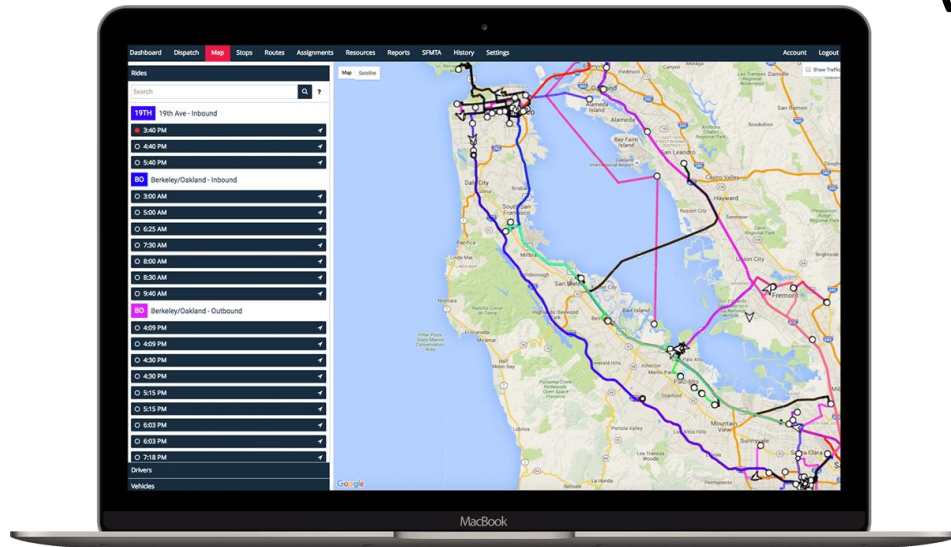

- **Real-time GPS tracking** for vehicles: Fixed Route and On Demand
- **Manage Route Schedules**, Driver/Vehicle Assignments, and various Transportation Programs (Vanpool/Carpool, Biking, Parking)
- Flexible and extensible **Dispatch Platform** – prevent SLA violations
- Accurate **ridership and utilization/cost reports**
- Asset management and **Maintenance backend**
- Manage and **maintain Rider feedback**
- **Compliance** management

VALIDATION AND TRACKING PLATFORM

Optimize The Commute

Validate and track alternate commute options (Carpool/Vanpool/Biking/Parking).

- **Riders can track** and **employers can validate** Carpool, Vanpool, and Bike commute trips within the Tripshot app
- Ride distance, GPS data, and history stored for **analytics and auditing**
- **Single admin portal** for all commute reports
- Support for **Enterprise badging** integration to validate parking or bike cage access

Vision

Complete transportation platform
for Private/Public commute market.

One Turn Key and Flexible Platform:

About Us

History & Methodology

- Exavolve founded in 2008 as a SaaS company, spun out Tripshot in 2014
- Created Transportation software for large customer and saw the technology challenges in transportation
- Our full service delivery model is inclusive of IT design, development, hosting, and support

Expertise

- Experts at cloud computing, delivering critical business apps, API integration and security
- Experts in corporate transit programs
- Our customers love us!

Components

ADMIN/ DISPATCHER WEB

Manage resources and monitor daily operations and program health.

DRIVER APP

Uses built-in GPS of smart device. Confirms route assignment, check-in and ridership.

RIDER APP

Multi-modal trip planner with vanpool & vanpool options, real-time vehicle visibility and per stop notifications.

RIDER WEB

Provides same information as Rider App through a webpage.
