

Dominion Virginia Power Community Solar Power Program

Solar Purchase Program

Community Solar Power Program

- Company-owned solar generation (30 MW)
 - Filed 10/31/11
 - Expect ruling 11/29/12
- Customer-owned solar tariff (3 MW)
 - Filed 05/17/12
 - Anticipate ruling Q4, 2012

Structure of the Solar Tariff

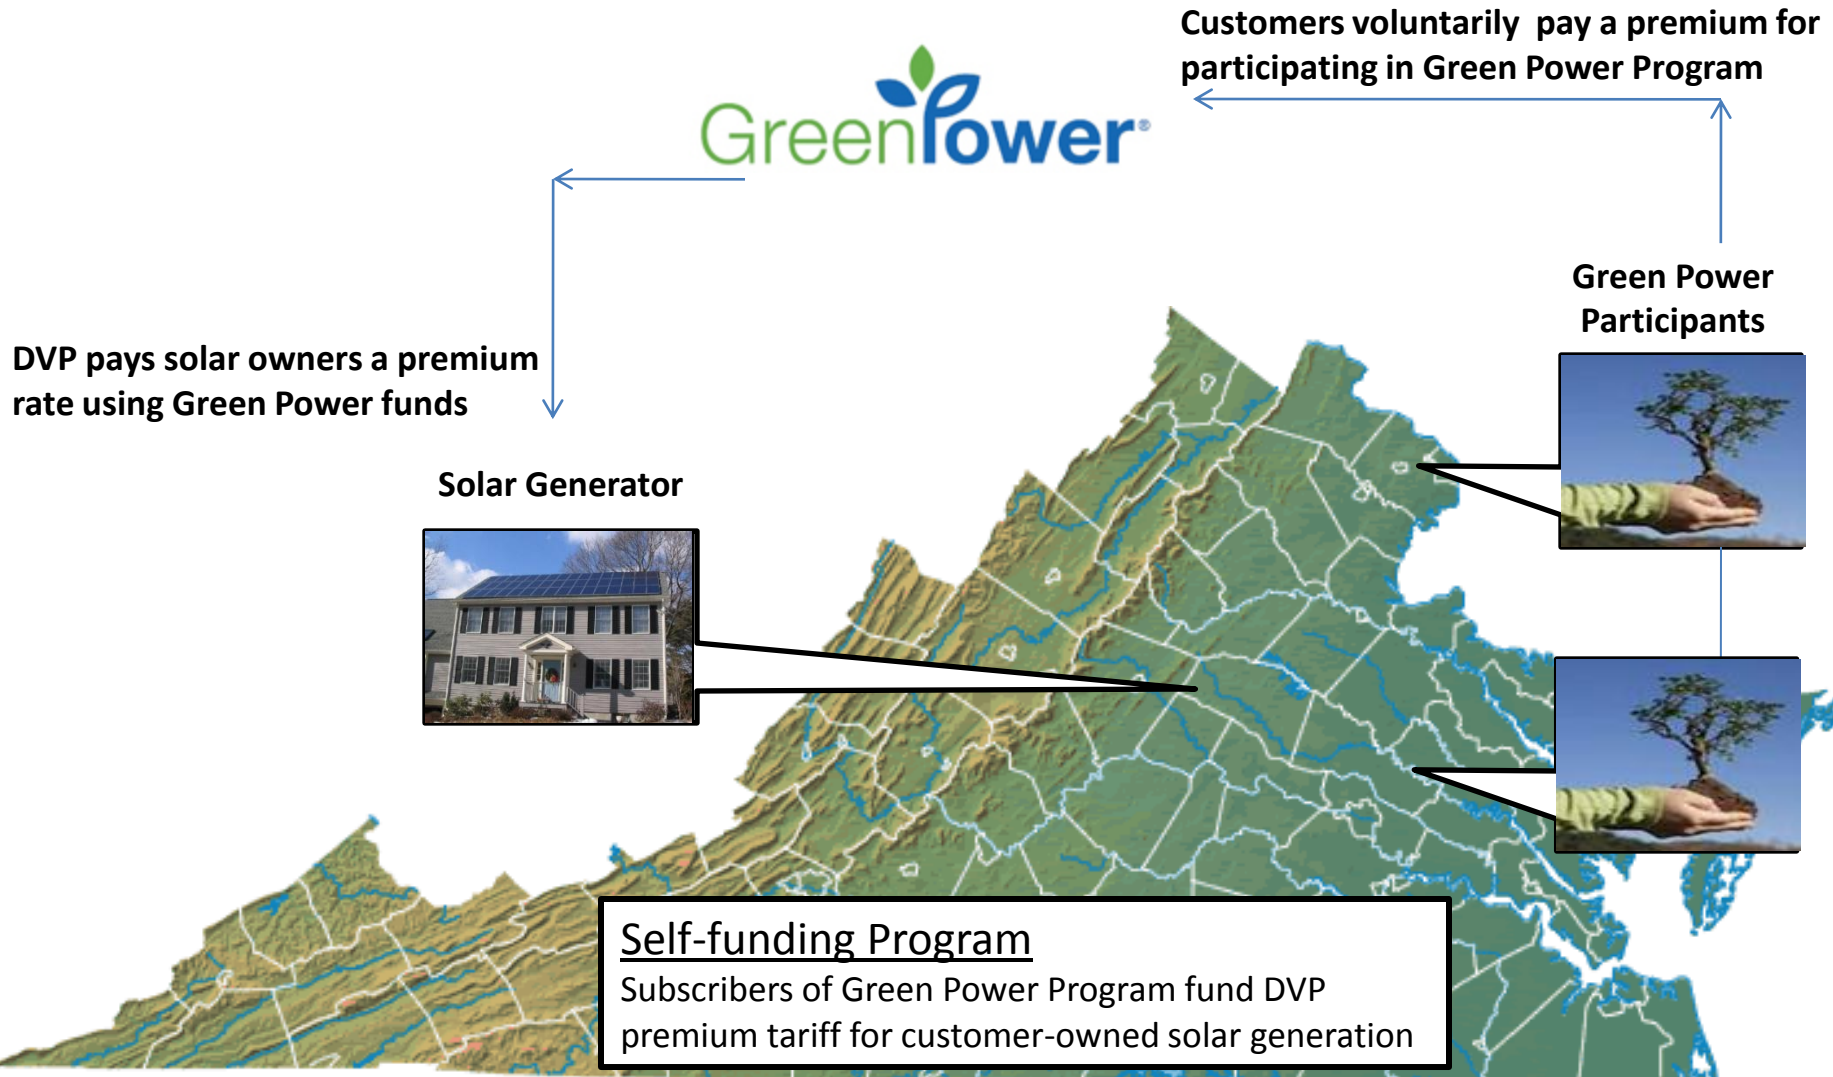

Objectives :

- Support Chapter 771, Distributed Solar Legislation
- Facilitate customer-owned solar generation
- Provide an alternative to Net Metering

Parameters:

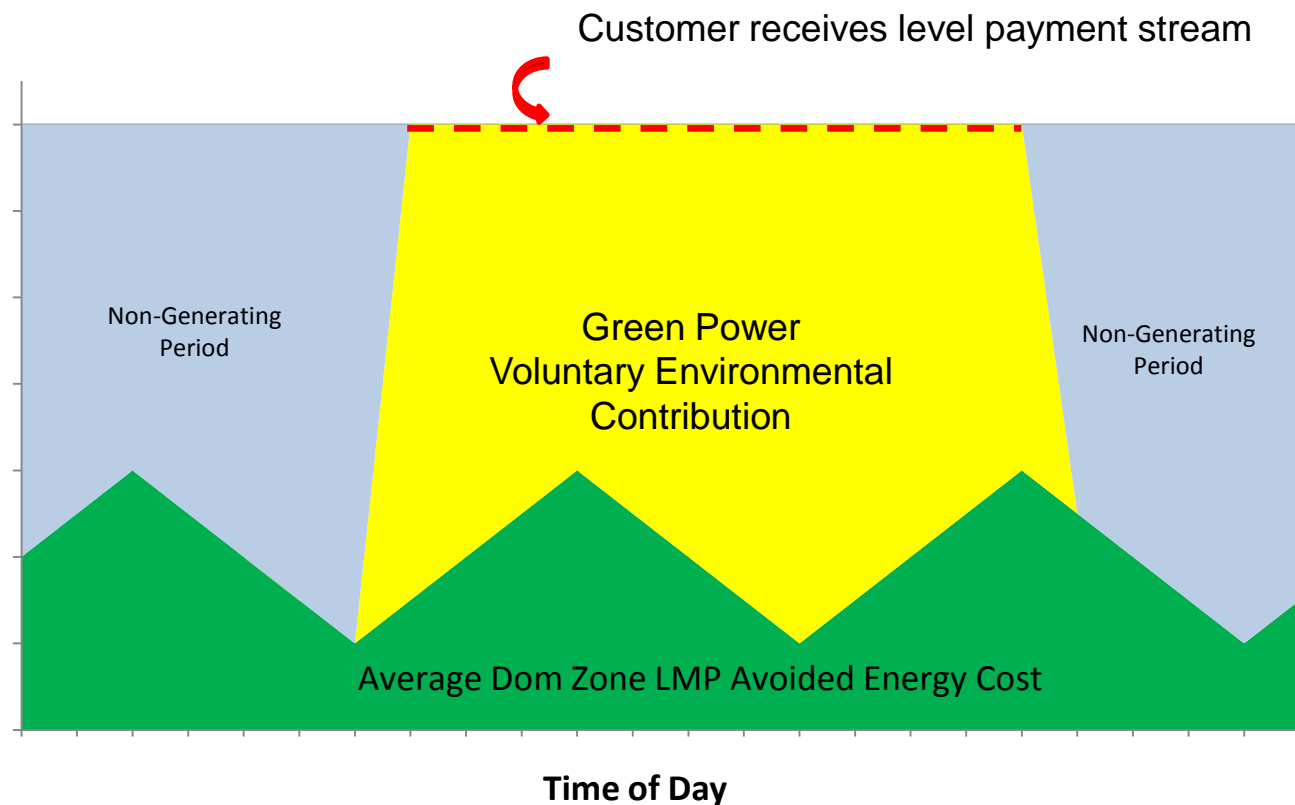

- Fixed Price
- Multi-year contract (5 years)
- Requires two meters (buy/sell)

Solar Tariff – Model

Solar Tariff – Price Components

Payment to the Solar Customer-generator

Solar Tariff – Funding Mechanism

- Opportunity to grow customer participation with VA solar
 - 85% interested in a Virginia-only renewable energy option; of that 47% would pay more for a Virginia-only option
- Maintain REC retirement commitment
- Modify REC mix to include VA solar RECs
