12:55 P.M. 8. VISUALIZE 2045: DRAFT REVIEW

Staff will introduce the draft of Visualize 2045, the TPB's new long-range transportation plan for the National Capital Region, which was released for public comment on September 7. After the 30-day comment period, the TPB will be asked to approve Visualize 2045 at its October 17 meeting.

A. INTRODUCTION, REGIONAL POLICY, REGIONAL CONTEXT

Lori Zeller, TPB Transportation Planner

This introduction will include an overview of the region's transportation system, land-use forecasts, and the regional policies which guided the development of Visualize 2045.

B. ASPIRATIONAL ELEMENT

Abigail Zenner, TPB Communications Specialist

In 2017 and 2018, the TPB endorsed seven aspirational initiatives to include as the unfunded element of Visualize 2045. Staff will explain how the aspirational initiatives are integrated throughout Visualize 2045.

C. FINANCIALLY CONSTRAINED ELEMENT

• **Projects in the financially constrained element**

Andrew Austin, TPB Transportation Planner

Staff will provide a brief overview of project highlights from the financially constrained element of Visualize 2045 and how they support the seven endorsed initiatives.

- **Financial plan**

Eric Randall, TPB Transportation Engineer

Federal regulations require the long-range transportation plan and TIP to have a financial plan that demonstrates how they can be implemented and the sources of funding reasonably expected to be made available to carry them out

- **Performance analysis**

Sergio Ritacco, TPB Transportation Planner

The performance analysis for the financially constrained element of Visualize 2045 “visualizes” the differences between three scenarios.

- **Air Quality Conformity determination**

Jane Posey, TPB Transportation Engineer

The financially constrained element of Visualize 2045 demonstrates that future emissions under the plan are consistent – “in conformity”—with emissions levels set forth in air quality plans adopted by the states.

D. PERFORMANCE PLANNING

The TPB champions improvements in the ways the region's transportation system is managed and operated. Staff will briefly describe the purpose of performance planning, highlighting Performance-Based Planning and Programming, the Congestion Management Process, and related efforts.

E. ADDITIONAL PLAN ELEMENTS

- Equity and Inclusion
- Transportation Demand Management

F. PUBLIC PARTICIPATION

John Swanson, TPB Transportation Planner

The TPB developed Visualize 2045 over a four-year period between 2014 and 2018, and public participation has been an integral part throughout. Staff will provide an overview of all the public involvement activities and summarize the public input received.
