*Local government members will highlight events, projects and programs. Local governments will also address the following questions in preparation for the next agenda item discussion:*

*How is energy resilience and community resilience planning integrated in your jurisdiction's energy work or programs?*

*What actions has your jurisdiction taken with regard to energy emergency assurance planning (responding to potential and/or actual energy supply disruptions)?*

*How can COG support energy resilience planning at the local and regional level?*

*What challenges are presented in addressing energy resilience?*

**10:35 A.M. 5. THE NEXUS BETWEEN RESILIENCE PLANNING, ENERGY AND THE BUILT ENVIRONMENT**

(Linkage to 2019 BEEAC Priorities: [Energy Resiliency and Climate Adaptation](#))

(Linkage to Climate Action Plan: [Table 7: Local Actions to Build Regional Resilience](#))

Experts will discuss the role energy plays in context with resilience planning. The interface between resiliency, community energy planning and energy assurance planning will be explored. Context will be provided, considering the changes in weather and climate patterns (temperature, precipitation, and sea level rise) observed and expected over the next few decades in the mid-Atlantic region, with some specific examples of how climate change may impact the energy sector.

- Ned Gardiner, NOAA
- David Terry, NASEO
- Dale Medearis, NVRC
- Rich Dooley, Arlington County
