

December 2021

**TPB Technical Committee
Agenda Item 7**

d. **WE ARE WASHINGTON** **DC** GOVERNMENT OF THE DISTRICT OF COLUMBIA
MURIEL BOWSER, MAYOR

Agenda

1. moveDC Background and Process
2. moveDC Goals, Strategies, and Resources
3. Implementing moveDC

moveDC Background & Process

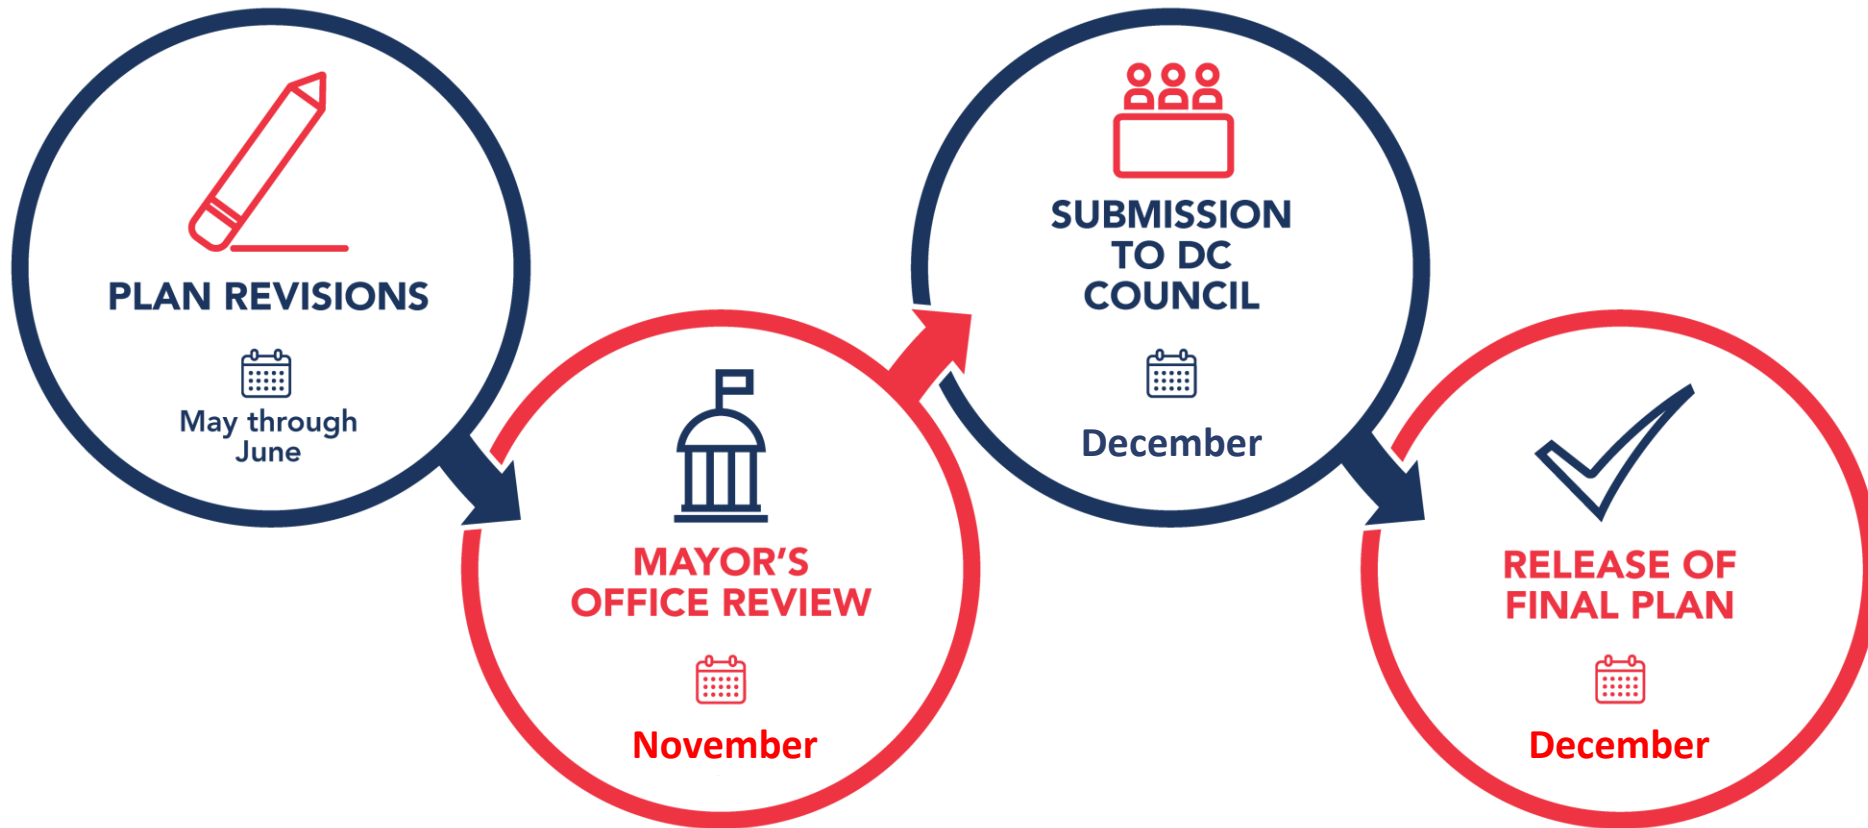

moveDC and other plans

The goals and policies of moveDC work in concert with other long-range plans, including:

- Age-friendly DC 2023
- Carbon Free DC
- DC Comprehensive Plan
- DC State Rail Plan
- DDOT Decongestion Pricing Study
- Sustainable DC
- Visualize 2045

2021 Update Timeline

moveDC Goals, Strategies, and Resources

moveDC Goals

Equity

DDOT will advance transportation equity by evaluating its policies, planning, community engagement, and project delivery to ensure public investments in transportation justly benefit all residents, visitors, and commuters.

Safety

DDOT will design and manage a transportation network that offers safe and secure travel choices for all users, in accordance with Mayor Bowser's Vision Zero initiatives.

Mobility

DDOT will increase system reliability, improve accessibility and manage congestion through coordination, communication, and mobility options, providing safe and affordable travel choices for all users and trips.

Project Delivery

DDOT will complete projects on-time and on-budget while engaging and communicating with the community.

Management and Operations (State of Good Repair)

DDOT will ensure the state of good repair for existing assets by investing in maintenance and operations to address the greatest mobility needs.

Sustainability

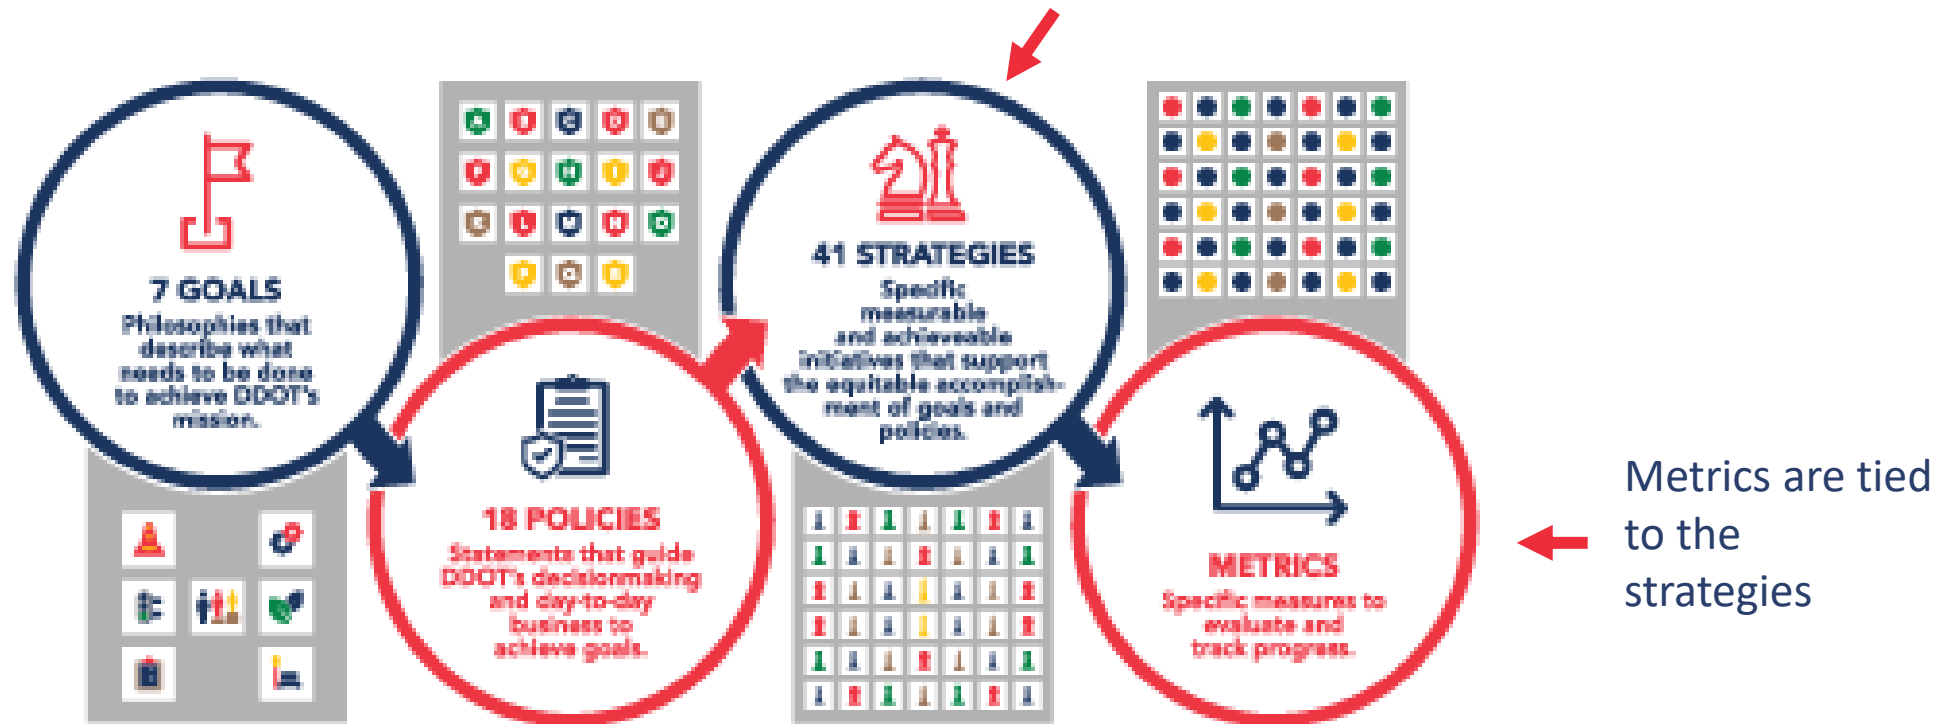

DDOT will manage and promote a transportation network that supports economic vitality and opportunity, reduces emissions, and strengthens resilience in the face of climate change, especially in historically under-resourced neighborhoods that may experience greater impacts.

Enjoyable Spaces

Public spaces and transportation systems managed by DDOT will be accessible, safe, and welcoming to residents, visitors, and commuters.

Interplay Between Framework Elements

Many policies support multiple goals, and many strategies support multiple policies

Metrics are tied to the strategies

Strategies added from public feedback

Strategy #22: Build More Trails in the Capital Trails Network

Prioritize construction of the Capital Trails Network. Develop a method to measure the extent to which a project improves trail network connectivity. Include features in the design of trails that enhance the safety, comfort, and orientation of users (e.g. wayfinding, lights, and mile markers).

Strategy #31: Implement the programmed Streetcar Expansion

Implement the programmed streetcar expansion to the Benning Road Metrorail Station.

Mapping Transportation Needs

Transportation Needs are areas where there is a need for improvement based on **three factors**:

- Proximity to **frequent transit**
- **Access to jobs** and **destinations**
- Proximity to **safety risks**

Purpose of mapping Transportation Needs:

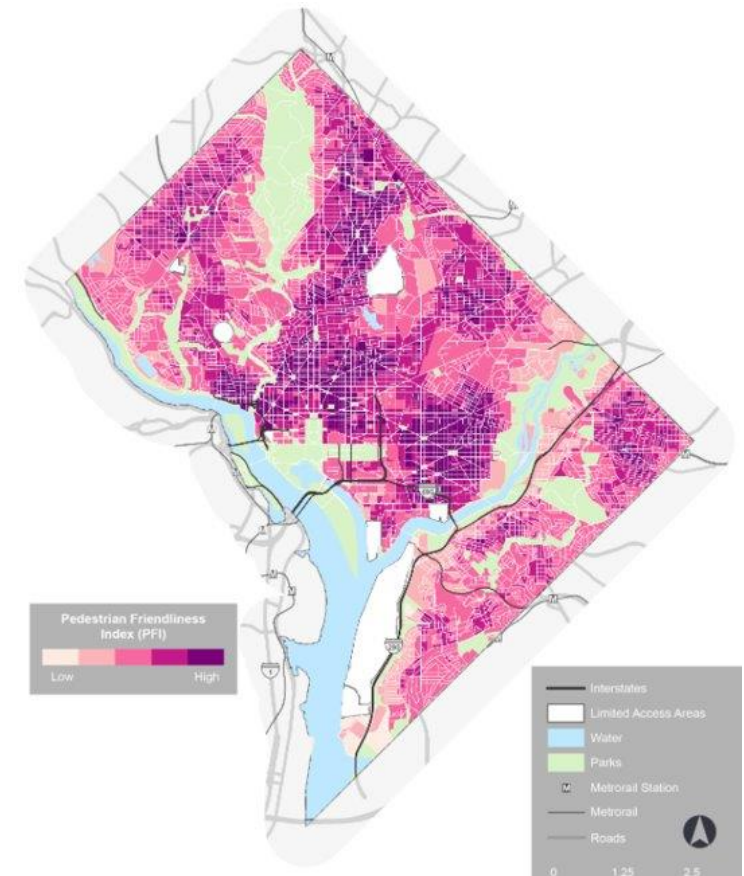

- Bring together moveDC elements, especially Safety, Mobility, and Equity
- Help DDOT prioritize investments; direct resources to areas with greatest needs; enhance equity

- Areas with **greatest** needs are **darker**
- Areas with **least** needs are **lighter**

Addressing Pedestrian Network in Mobility Priorities

- Created Pedestrian Friendliness Index to inform decision-making
- Inclusion of strategies such as:
 - Incorporate Complete Streets principles
 - Make intersections safer for pedestrians
 - Improve safety and accessibility of sidewalks and intersections
- Continued commitment to Vision Zero and ongoing sidewalk and accessibility improvements

Mobility Priority Networks

Transit Priority Network

Freight Priority Network

Bicycle Priority Network

Other Maps Available

- Projected Job and Population Growth
- The District's Complete Transportation Network
- Streetcar Route Map
- Bridges and Tunnels
- Walksheds to High-Frequency Transit
- Capital Bikeshare Walksheds
- District Freight Network
- Average Commute Time by Ward
- Average Travel Speeds
- Planned Time Index (PTI)
- Bus Transit Ridership
- Bicycle Level of Traffic Stress
- High-Injury Corridors
- Access to Jobs and Destinations
- Shared Mobility
- Demographic Data

Implementing moveDC

Implementing moveDC

- Each strategy will be implemented in 2 years, 5 years, or 5+ years
- Annual report to be released detailing progress starting next year
- Annual budget formulation processes
- Refinement of project selection and prioritization criteria to tie to moveDC goals, policies, and strategies
