

## Metropolitan Washington Council of Governments FY 2011 Second Half Draft Marketing Campaign Summary

### Introduction

For the first time in 10 years, there are fewer Single Occupancy Vehicles (SOV) on area roads. Increasing traffic congestion, higher gasoline prices, a difficult economy, and effective commuter services and public education from the Commuter Connections network, have all contributed to this decline. In addition, telework is no longer simply a commute option; it is becoming a cornerstone of the new “intelligent working” method being adopted by many public and private employers in the region. Transportation and commuting news in metropolitan Washington garners front-page coverage in the region’s newspapers. This provides a positive environment for Commuter Connections to further increase registrations and build awareness in FY2011.

Commuter Connections, along with its network members, continue to educate commuters and help them find alternatives to SOV commutes.

Activities undertaken in the second half of FY2011 include the following:

- The launch of a new umbrella marketing campaign in February 2011 that continues to explore new messaging and media to most effectively communicate solutions to the region’s transportation challenges.
- Continuation of marketing for the ‘Pool Rewards program.
- Marketing initiatives tied to specific event planning to keep alternative commuting options front of mind. This includes Bike to Work Day and the Employer Recognition Awards.
- Communication outreach such as the employer newsletter and earned media efforts.
- Diligent efforts of network members to forge and leverage relationships with commuters throughout the region.

As laid out in the marketing brief distributed to network members in August 2010, the strategies behind the FY2011 marketing campaign reflect the current state of events for the region’s commuters and also build upon the research and findings of the following reports:

- 2010 State of the Commute Survey

- Transportation Emission Reduction Measure (TERM) Analysis Report FY2006-2008
- Fiscal Year 2009 Applicant Database Annual Placement Survey Report
- 2007 Bike to Work Survey TERM Analysis Report
- 2007 GRH Survey Report
- Commuter Connections Stakeholder Attitudes and Opinions, April 2007

Research, campaign experience, and current events all support the planned strategy for FY2011, of converting SOV commuters to alternative transportation, by driving home the message that commuters can save money by sharing a ride and, for those using alternative transportation, GRH provides a safety net for their commute. The team's efforts for the second half of FY2011 include the following:

- The launch of an exciting new umbrella campaign that promotes the cost savings of ridesharing and urges commuters to not "Flip Out" over their commute by registering for GRH.
- Promotion of Bike to Work Day as a regional event, which invited commuters in the Washington metropolitan region to bicycle to work on May 20th and to consider bicycling as a regular commute alternative.
- Recognition of the area's employers who are providing new and innovative programs or incentives to improve their employees' commute to work.

This draft report covers the second half FY2011 Marketing Campaign for the Metropolitan Washington Council of Governments' Commuter Connections program.

### **About Commuter Connections**

Commuter Connections is a regional network of transportation organizations coordinated through the National Capital Region Transportation Planning Board at the Metropolitan Washington Council of Governments (COG). Commuter Connections offers free services to those who work in the metropolitan Washington area, including ridematching for carpools and vanpools and administration of the Guaranteed Ride Home program. Through its Employer Outreach Representatives, Commuter Connections also helps employers establish commuter benefit programs for their employees, including teleworking.

Organizations represented in the Regional TDM Marketing Group include:

City of Alexandria	ARTMA	Fairfax City
Fairfax County Office of Transportation	National Institutes of Health (NIH)	Mass Transit Administration (MTA)

June 9, 2011

Northern Virginia Transportation Commission (NVTC)	Potomac and Rappahannock Transportation Commission (PRTC)	Virginia Department of Transportation Northern Virginia District Office
TYTRAN	VDOT	LINK
Virginia Department of Rail and Public Transportation	Dulles Area Transportation Association (DATA)	Tri-County Council for Southern Maryland
Virginia Railway Express (VRE)	Washington Area Bicyclist Association (WABA)	Washington Metropolitan Area Transit Authority (WMATA)
Arlington County	MDOT	VPSI
General Services Administration (GSA)	District Department of Transportation (DDOT)	Loudoun County Office of Transportation Services
Maryland State Highway Administration	Montgomery County Ride On	Montgomery County Commuter Services
Montgomery County	Rappahannock Area Development Commission (RADCO)	Rappahannock-Rapidan Regional Commission
Northern Neck Rideshare/PDC		

## Cornerstones of the Marketing Program

The key products and services that are featured in the marketing program include the Guaranteed Ride Home and Ridematching programs. Both of these programs are critical to growing the regional database and making it easier for commuters to find and maintain shared ride arrangements.

The objectives of the program include the following:

- Create a platform which promotes all network products and services individually while reinforcing the support provided by the umbrella program of Commuter Connections.
- Raise awareness of the Commuter Connections network and position the group as the region's first resource for alternatives to driving alone.
- Promote awareness of Ridematching services among commuters and increase applications for the program.
- Promote awareness of the Guaranteed Ride Home service among commuters and increase applications for the program.
- Use special events such as Car Free Day or Bike to Work Day to encourage commuters, or in the case of Car Free Day the general population, to use the occasion to try an alternative form of transportation.

## Messaging Strategy

During the first half of FY2011, a messaging strategy was developed based on Commuter Connections' research, including the 2010 State of the Commute Survey, previous campaigns, and current events. Concepts were developed to deliver the messages both verbally, in radio scripts, and visually. The strategy was further refined through market research that tested the success of these concepts in delivering the message. As a result, the spring campaign's Ridematching campaign is a very direct, simple message that reminds commuters of the money and time to be saved through ridesharing.

As indicated in past surveys and supported by the market research, commuters are motivated to switch to alternative transportation primarily in order to save money. The visuals used for this year's campaigns are a direct and forceful message that ridesharing can save commuters money. By carpooling with just one other person, a commuter can cut the cost of their commute in half. Bold lettering and

images of gas cans and money cut in half urge commuters to “Save half”. The call to action is to visit [commuterconnections.org](http://commuterconnections.org).

The radio scripts, in addition to driving home the save money message, also deliver the message that ridesharing can provide stress relief. Building on the save half message again, listeners are urged to cut in half their amount of driving, their level of stress, and the money spent on their commute. They are directed to sign up at [commuterconnections.org](http://commuterconnections.org) if they want to rideshare.

The message for this year’s Guaranteed Ride Home campaign is to remind commuters “Don’t Flip Out”. The visual is both fun and eye-catching. In one, a businessman is caught in mid-air doing a backflip. The message is “No need to flip out”. In the other, a businessman is hanging upside down with the message “Don’t be left hanging”. The call for action for both is to sign-up for Guaranteed Ride Home.

Radio spots used “flipping out” workers concerned about a child’s sickness or the need to work late urged by a level-headed colleague to remain calm because with Commuter Connections’ Guaranteed Ride Home service, there was no need to flip out.

## **Overall Target Market**

The overall target audience for the communication was:

- Commuters between 25-54 years old
- Caucasian (65%) and African-American (20%)
- \$60,000+ annual household income
- Commute more than 20 miles / 30 minutes
- Live in Virginia (65%) or Maryland (33%); work in D.C. (49%) or Virginia (34%)
- Work for employers with 250+ employees (68%)
- Work for federal agencies (54%) and private sector companies (30%)
- Professional (40%), Executive/managerial (19%) and administrative (18%)

## **Brand Character**

The Commuter Connections network wishes to be perceived as a network of organizations working to improve individuals' commutes. Through Commuter Connections' online ridematching system, commuters registering for the ridematching service are given direct access to other commuters who are seeking to carpool as well as commute routes and options.

## Media Objectives: Guaranteed Ride Home

The Guaranteed Ride Home program campaign utilized a mix of media to raise GRH awareness among commuters and increase applications. Guaranteed Ride Home leverages alternative transportation by removing one of the perceived barriers, how to get home in case of an emergency.

### Target market \*

- 35-54 years old, secondarily 25-54
- Caucasian (65%) and African-American (21%)
- \$60,000+ annual household income
- Commute of more than 30 miles / 45 minutes
- Live in Virginia (64%) or Maryland (34%); work in D.C (60%) and Virginia (30%)

### Geographic Targeting

Washington D.C. DMA

GRH Spring Budget	COG Cost
Radio	\$144,301
Television	\$65,000
Internet	\$20,000
Flippin' Pizza Co-Promotion (printing)	\$1,896
Donated space (printing)	\$3,235
Estimated Direct Mail	\$48,750
<b>Total Budget</b>	<b>\$234,432</b>

---

\* Source: 2007 GRH Survey Report

**Media Objectives: Rideshare**

The campaign to promote the Rideshare program uses a mix of traditional approaches to maintain awareness among commuters and increase applications for this program. With the anticipated rise in gas prices this spring, gas pump toppers were selected as part of this campaign’s media mix to deliver the save money message while commuters are filling up at the pump.

**Target market:** Source: Fiscal Year 2009 Applicant Database Annual Placement Survey Report

- 25-54 years old (82%), 35-54 years old (63%)
- Caucasian (64%) and African-American (20%)
- \$80,000+ annual household income (68%)
- Commute of more than 20 miles / 30 minutes
- Work for employers with 100+ employees (71%), work for employers with 1000 or more employees (41%)
- Live in Virginia (65%) or Maryland (33%); work in D.C (49%) or Virginia (34%)
- Work for federal agencies (50%) and private sector (31%)
- Professional (37%), Executive/managerial (30%), and administrative (16%)

**Geographic Targeting**

Washington D.C. DMA

<b>Rideshare Spring Budget</b>	<b>COG Cost</b>

Gas Pump Toppers	\$93,600
Production	\$6,435
Direct Mail	\$48,750
Military Relocation Guide	\$1,695
<b>Total Budget</b>	<b>\$242,631</b>

## Radio

Radio was selected as the anchor medium due to its ability to reach a large portion of our target market (90 percent) with significant frequency during possibly stressful, frustrating, costly and long commutes. The following D.C.-focused and exurban stations were used during the campaign:

WASH (Soft Rock 97.1FM)      WRQX (Mix 107.3FM)      WTOP (News/Talk 103.5FM)  
WBIG (100.3 FM)      WVRX (The Edge, 105.9 FM)

Both the Guaranteed Ride Home and Rideshare campaigns have two radio spots each that sell the benefits of the respective Commuter Connections' programs. Because of the investment in gas pump toppers to deliver Rideshare's save money message at a point when commuters are most receptive, the investment in radio for Rideshare was respectively scaled back. The Guaranteed Ride Home and Rideshare radio spots alternate with 2 weeks of GRH spots followed by 1 week of Rideshare spots for a total of 10 weeks from February 28 through June 26.

The following spots are promoting the Guaranteed Ride Home and Rideshare campaigns this spring:

***Guaranteed Ride Home::30—“Flip Out – Daycare”***

A neurotic father worries about the germs his son may be exposed to at daycare and, should his son get sick, how he'll pick him up since he carpools. A level-headed colleague reassures him he has no need to “flip out” since he has a Guaranteed Ride Home with Commuter Connections.

***Guaranteed Ride Home::30—“Flip Out – Work Late”***

A stressed out commuter moans about the commute but feels resigned to driving alone for fear of not being able to get home should the boss need her to work late. A colleague reassures her that if she rideshares, there's no need to “flip out” since Commuter Connections guarantees her a ride home if her boss requires her to work late.

***Ridesharing::30—“Save Half – Woman”***

A commuter requests a rideshare partner to save half the gas, half the money, and half the stress with her.

***Ridesharing::30—“Save Half – Man”***

A commuter likens ridesharing to halftime, providing a personal halftime with half the driving, half the stress, and half the costs.

## Value Added Promotions

For the spring campaign, approximately \$90,000 in bonus spots and placements were provided by the media vendors at no additional charge. Value-add from the radio stations came mostly in the form of no charge spots or :10 and :15 second PSAs. WASH and WBIG provided 7 and 8 weeks respectively of :15 PSAs running March through June. WTOP provided 8 weeks of :10 PSAs as well as no charge spots running March through June. WRQX and WVRX were onboard with :10 PSAs throughout March. The PSAs were used to promote the 'Pool Rewards program.

Nicholas Ramfos was interviewed for Tom Grooms' Spectrum Show that aired on WRQX and WRVX in March. The approximately half hour interview covered a wide range of transportation-related issues and how they're being addressed by the Commuter Connections program.

WRQX sponsored 3 "Don't Flip Out" promotions with prizes provided by Flippin' Pizza as part of the Commuter Connections-Flippin' Pizza's co-promotion. See **Commuter Connections-Flippin' Pizza Co-promotion** for more details.

In addition to radio, the other media vendors also stepped up with added value for the spring campaign. At least 40,000 bonus impressions were provided by 3-Interactive, the online ad serving vendor. The gas pump topper vendor secured 8 additional gas stations as a bonus and provided window clings for all gas stations at no additional charge.

## Commuter Connections –Flippin’ Pizza Co-Promotion

Inspired by the “Don’t Flip Out” message, Commuter Connections partnered with Flippin’ Pizza to remind commuters not to flip out about their commute.

Commuter Connections’ GRH message of “Don’t Flip Out” was distributed on 4” x 4” stickers adhered to approximately 45,000 pizza boxes at Flippin’ Pizza’s 8 locations in Virginia (Annandale, Chantilly, Falls Church, and Reston), Maryland (Bethesda, Arundel Mills, and Silver Spring), and DC (Dupont Circle). The space on the pizza boxes was donated by Flippin’ Pizza.

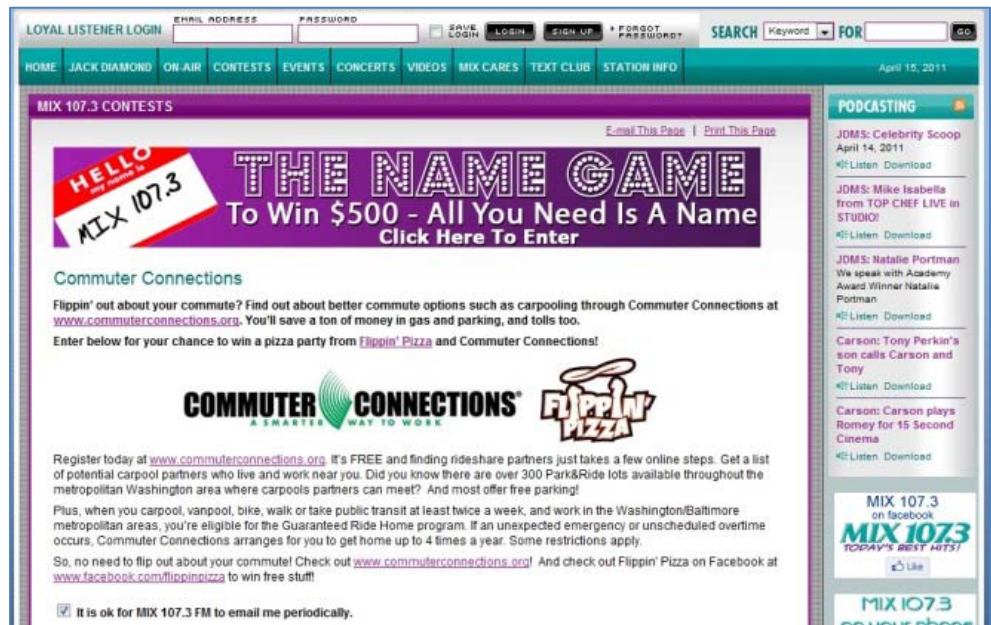

Commuter Connections is now one of Flippin’ Pizza’s VIP partners. As a Flippin’ Pizza VIP partner, customers who produce a valid GRH card are entitled to 10% off their order. This is advertised on the stickers on the pizza box as well as on the coupons being distributed when commuters re-register for GRH.

In consideration for the advertising space provided by Flippin' Pizza on the pizza boxes, Flippin' Pizza was included in promotional mentions on Commuter Connections' advertising on WRQX as well as on the splash page of the Commuter Connections-Flippin' Pizza contests that were run in April and May.

Promotions for the months of April and May were in the form of contests tied to the message of don't flip out on your commute. Prizes were supplied by Flippin' Pizza with April's prize being lunch provided by Flippin' Pizza to the winning carpool's place of work. Following 2 weeks of promotion on WRQX, May's prize was pizza for a year for the winning commuter.

## Television

A new TV commercial was produced based on the GRH campaign's "Don't Flip Out Concept". The commercial features an end of the work day, mad dash for the door. A voice over reminds viewers there's no need to flip out if you rideshare and are asked to work late. Commuter Connections' Guaranteed Ride Home Program gets you home. Guaranteed.

The commercial aired this spring on Mid-Atlantic Sports Network (MASN) during Nationals baseball games from April through June. Commuter Connections received the following coverage on MASN:

- 55 30-second Nationals in-game commercials (one per game)
- 55 30-second Nationals Xtra pre-game commercials (one per game)
- 55 30-second Nationals Xtra post-game commercials (one per game)
- 55 30-second encore game commercials (encore is game rebroadcast)
- 55 billboards, including a live read with the Commuter Connections logo on screen, aired in the Nats Xtra pre-game show in conjunction with the 30 second commercial
- 26 in-game feature sponsorships ("...presented by Commuter Connections") with the Commuter Connections tagline read live with Commuter Connections' logo incorporated into the on-screen graphic

In addition, the commercial was aired 180 times in MASN programming on shows such as ESPN News, Nationals Classic Games, Orioles Classic Games, and sports talk shows.

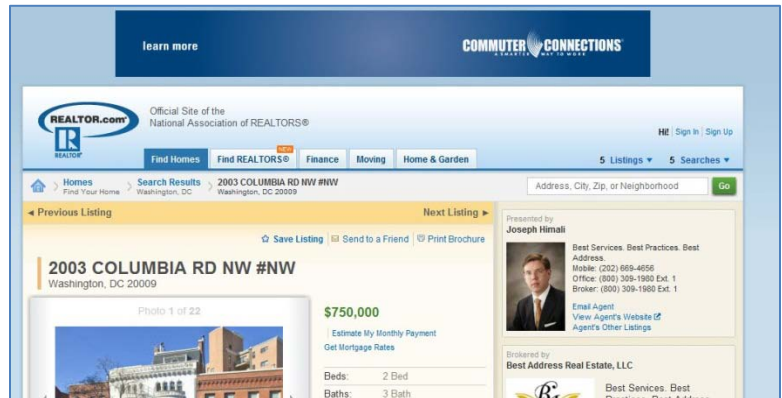

Nicholas Ramfos was interviewed on the Nats Xtra pre-game show on May 16.

## Internet Advertising

An aggressive Internet component was part of the spring campaign utilizing a number of sites that have performed well in the past. In addition to the high past performers, Realtor.com has been added to the mix. Research has shown that people reconsider their commute when they are looking to move. The banner ads remind potential home buyers of the benefits of ridesharing and a Guaranteed Ride Home if they do.

The following sites are being used in the spring campaign:

- accuweather.com
- WTOP.com
- monster.com
- NBC4
- Washington Times
- Real Estate websites (realtor.com, move.com, moving.com)
- Run-of-Site/Run-of-Network (ROS/RON) pop-under ads served to select websites of iii-interactive's publisher list
- 

Ad placements were modified during the campaign to optimize performance.

Forty-one percent of the banner ads are leaderboards measuring 728x90. This size ad has typically performed well in past campaigns. Additional ad sizes that will be used are medium rectangle (300x250), wide skyscraper (160x600), and pop-under (720x300).

The GRH banner ads reinforced the visuals and message of the TV ad and were very similar in look and feel to the commercial.

Banner ads also ran on masnsports.com as part of the media buy with MASN.

## Gas Pump Toppers

In anticipation of higher gas prices in the spring, gas pump toppers were selected to be an integral part of this year's Rideshare campaign.

Looking back to the success of the Spring 2008 campaign to reach commuters during high gas prices, this year's campaign took advantage of this unique opportunity to reach our target audience at exactly the time they might be most receptive to the message. Gas pump advertising displays full-color, weatherproof ads in frames on top of gas pumps. The standard size is 20" wide x 12" high with slight size variation by brand of station. Both Rideshare visuals will be displayed at the gas stations.

Gas pump toppers were placed at gas stations in D.C., Maryland, and Virginia for 4 months. Placements were secured at 117 gas stations in the region with the vendor providing another 8 stations as bonus for a total of 125 stations. See **Appendix A** for a list of the stations where the advertising appeared.

## Transit Signage - Member Donated Space

The free contributions of Commuter Connection network members are greatly valued as an effective channel for communicating the Commuter Connection message. By delivering the Commuter Connections message along the much traveled commuter routes, Commuter Connections is assured frequency of message in an affordable and effective manner. Commuter Connections has received generous donations of space on various transit properties from the following network members:

Bus kings in Frederick and Montgomery counties promoted Commuter Connections' Rideshare and GRH programs. PRTC bus kings drove home the GRH Don't Flip Out Message.

Rideshare ad on Frederick TransIT bus

June 9, 2011

Rideshare ad on Montgomery County bus

GRH ad on Montgomery County bus

GRH ad on PRTC bus

GRH ad on PRTC bus

Riders on the Arlington Transit and Fairfax Connector buses as well as the MARC trains were reminded of the benefits offered by GRH to transit riders by interior bus cards. 30 bus shelters in Montgomery County drove home the benefits of both Ridesharing and GRH. See Appendix B for the locations of the bus shelters.

## **‘Pool Rewards**

The ‘Pool Rewards incentive program continued to be promoted through June 2011 with paid media placements in February and May-June. The ‘Pool Rewards program offers a cash incentive to encourage drive alone commuters to change their commute behavior by trying carpooling. In order to be eligible, a commuter needs to be a current SOV commuter and join or form a carpool.

## **Target Market**

The target audience for this campaign shares the demographics of the Rideshare target audience, namely the following:

- 25-54 years old (82%), 35-54 years old (63%)
- Caucasian (64%) and African-American (20%)
- \$80,000+ annual household income (68%)
- Commute of more than 20 miles / 30 minutes
- Live in Virginia (65%) or Maryland (33%); work in D.C (49%) or Virginia (34%)
- Work for employers with 100+ employees (71%), work for employers with 1000 more employees (41%)
- Work for federal agencies (50%) and private sector (31%)
- Professional (37%), Executive/managerial (30%), and administrative (16%)

## **Marketing Strategy**

Paid media placements encouraged drive alone commuters to register for ‘Pool Rewards in February and again in May and June. During the weeks of February 14 and February 21, :10 live reads were purchased as part of WTOP’s traffic sponsorship package for a total of 70 :10s over the 2 week period.

In June, listeners of WTOP and WMAL were encouraged to join or form a carpool and register for ‘Pool Rewards. A wide skyscraper (160x600) banner ad ran on Dr. Gridlock’s page on washingtonpost.com during June. A ‘Pool Rewards ad was served to Facebook users during May and June.

Additional bonus air time was provided by WRQX, WVRX, WASH, WBIG, WTOP from March through June to help promote the ‘Pool Rewards program as part of the spring campaign’s value add. WRQX and WVRX, ran :10s reads 10 to 15 times a week throughout the month of March. WTOP ran :10s reads 5 times a week for 8 weeks. WASH and WBIG ran 10 :15s a week for 2 and 3 weeks respectively during March. WASH and WBIG provided five additional weeks of promotion from April through June with the spots running 15 times a week.

June 9, 2011

A campaign was enacted during the month of June to bolster participation in the 'Pool Rewards program. A mix of internet and radio was used to provide exposure for the incentive program. Radio included :30 second spots on WMAL and WTOP. Skyscraper web banners were placed on Washington Post.com including 40,000 impressions on the Dr. Gridlock page. Paid advertising appeared on Facebook to users within the Washington metropolitan area. Total cost for the campaign was \$44,025.

**Capt. Sully's Hudson River plane on Md. highways**  
By Robert Thomson

If you see a jet in an unusual spot this morning, it won't be the first time for that particular plane. The Maryland State Highway Administration is advising drivers that the fuselage of the US Airways jet that pilot Chesley "Sully" Sullenberger [landed on the Hudson River](#) is traveling along the state's highways today.

The truck carrying the fuselage is heading to a museum in South Carolina. It left Perryville, Md., shortly after 9 a.m., proceeding south on Interstate 95 to the Baltimore Beltway. From the Beltway, the 185-foot-long truck will make its way to Interstate 70 west and finally to Interstate 68 toward West Virginia.

This will be a sight to see, but drivers should expect delays along the route.

The 16-foot-wide truck carrying the plane will travel no more than 50 mph and will require two lanes. The highway administration is recommending that motorists who plan to travel in Whitemarsh, Overlea, Parkville, Towson and Pikesville this morning use alternate routes to avoid delays.

The highway administration will tweet updates on [@MDSHA](#).

## Facebook Advertising

Outreach also extended to online placements. Advertisements were placed on craigslist in the rideshare section to notify people looking for carpool partners of the program. Notices were also placed on the Commuter Connections Bulletin Board and Craigslist.

An article appeared on the back page of the winter newsletter to remind ETCs of the continuation of the 'Pool Rewards program and to visit [commuterconnections.org](http://commuterconnections.org) for more information or to register.

The advertisement is a rectangular graphic with a blue header and a green banner. The header contains the 'COMMUTER CONNECTIONS' logo and contact information for the National Capital Region Transportation Planning Board. The green banner reads 'GET PAID TO CARPOOL'. Below this, the text describes the 'POOL REWARDS' program, highlighting that participants can earn up to \$130 over a 90-day period. An image of scattered US dollar bills is shown on the right side of the text. A blue arrow icon points to the right in the top right corner. Fine print at the bottom right provides additional contact details and a copyright notice for February 2011.

**GET PAID TO CARPOOL**

Given rising gasoline prices, a little extra money can make a difference. That's what makes the Pool Rewards program from Commuter Connections a sensible option for commuters currently driving alone to work.

After a successful pilot program last year, Pool Rewards continues to focus on encouraging commuters who currently drive alone to try carpooling at least two days a week over a consecutive 90-day period. Eligible commuters can earn up to \$130 in that 90-day period when they start or join a new carpool.

Employees can review program details and register by clicking on the "Pool Rewards" logo at [www.commuterconnections.org](http://www.commuterconnections.org).

## Special Events

### Bike to Work Day

11,000 participants took to the streets on May 20, making this year's Bike to Work Day event the largest in the region's history. In addition to the record setting participation level, 49 pit stops dotted the region and welcomed individual cyclists and bicycling convoys with appearances and speeches by local elected officials, as well as prizes, food, and entertainment.

In preparation for the event, a sponsorship drive helped reach our goal to pay for 9,000 event T-shirts, pit stop banners and other possible items. In-kind sponsorships were also secured to provide food and beverage for many of the pit stops.

Posters and rack cards were sent to employers and employees through various distribution channels in order to create awareness and encourage registration.

Radio advertising targeted adults ages 25-49, slightly skewed toward men, with a household income above \$30,000. Signage appeared on Downtown Circulator buses. Facebook and Twitter were used to engage with commuters and drive registration to the website. Print ads ran in Washington Examiner, Washington City Paper, and Washington Post Express at the end of April and beginning of

**TRANSPORTATION**

**D.C. ranks 17th for commuter transit**

By Kristin Weir  
Illustration: Greg Wier

The Washington region may have one of the largest transit networks in the country, but a new report says that doesn't necessarily mean it offers the best connections for workers to get to their jobs.

Washington ranks 17th out of the 100 largest metropolitan areas nationwide on having the transit system closest to workers to their jobs, according to a Brookings Institution report to be released Thursday. That puts it behind New York City and San Francisco but also more surprising places such as Honolulu, San Jose, CA, and Salt Lake City.

There are not places that are well known for their transit, but what they do have is a compact footprint, said Alan Berube, a senior advisor at the Brookings report. "They're not as sprawling."

The report found that 68 percent of workers in Washington live near a transit stop of some kind, but only 27 percent of jobs are reachable via transit within 10 minutes. The authors said they realize that 90-minute commutes are a long commute, but

how the transit helps get people to jobs. Such connections are critical to helping the economic recovery, the authors said.

The Washington region does serve the people who need transit services the most, though, the report found. Low-income residents had better coverage, more frequent service and better job access than middle- and high-income workers, the report found.

The report was compiled using data for a low-income worker was 42 minutes for example, compared with 62 minutes for high-income workers locally and 68 minutes nationally.

Berube said that the key to improving access to Washington transit jobs will be to factor transit into job centers, not just planning city downtowns. Planned projects like the Purple Line between New Carroll and Lorton would help, he said.

**D.C. officials could face tough questions during Hill hearing**

By Frances Rogoff  
Illustration: Greg Wier

The District officials will push for greater independence from federal oversight Thursday at a House hearing on the city's budget that is expected to be the first and could have the city's mayor and council members answering tough questions.

"The federal budget might be an example that we can make decisions for ourselves," Mayor Vincent Gray said Wednesday when asked about Thursday's hearing, where the District's budget will be reviewed by the House panel.

Gray and Council Chairman Natarious Cannon are scheduled to testify. The House officials are typically called in Capitol Hill to testify about the budget after it passed by the council and signed by the mayor.

The hearing is expected to be held in the House chamber, where Jack Rosen, who will introduce the bill, will be the main speaker. "Maybe he's not," Rosen said of the chairman of the subcommittee that oversees the District.

It is in South Carolina, Republican Trey Gowdy's first term, but the hearing also gives congressional mem-

bers a chance to question Gray about an ongoing House investigation into claims the mayor's campaign paid off another report manufacturer he could not see on the campaign and other matters.

Although a congressional spokesman said questions would be focused on the budget and the stability of the transit system, committee members can ask anything they like.

And it seems the committee is ready to get tough with its questions. When it announced the hearing, the House oversight committee stated the prospect of the District returning to full federal control would be taken over by the city government in the next 90 days and push back against the control board question to the city.

Gray and Cannon will push back according to reports of their mutual admiration society by The Hill's report.

Despite the control board, lawmakers in the hearing announcement, it doesn't appear the city may any of the most factors that would force Congress to bring the board back.

## Employer Recognition Awards

The Commuter Connections Fourteenth Annual Employer Recognition Awards recognizes employers who voluntarily initiate worksite commute/telework programs to assist their employees. Winners and nominees will be honored at an awards ceremony on June 28, 2011. A special invitation and program agenda have been produced for this event. After the event, a ¼ page advertisement will be placed in the Wall Street Journal.

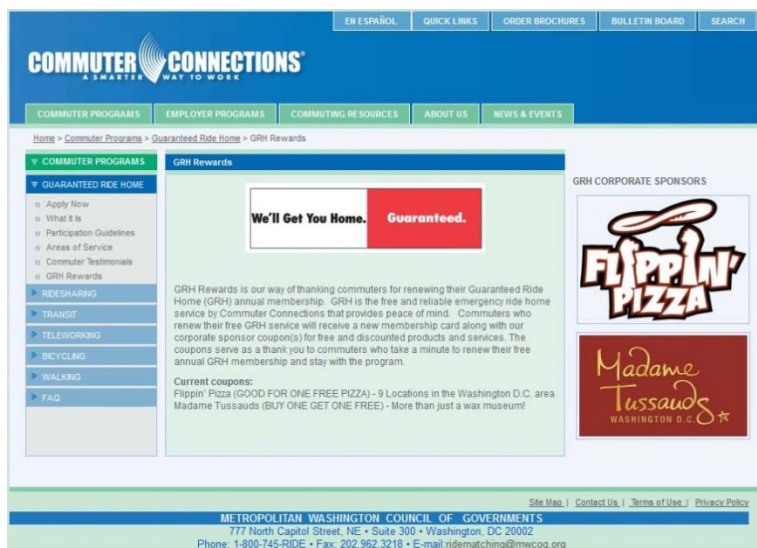

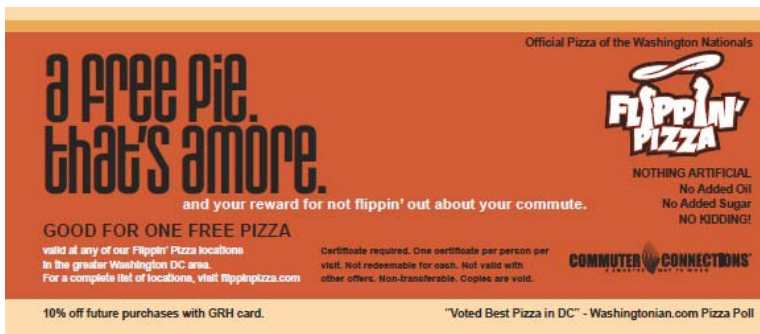

## Additional Marketing, Outreach, and Earned Media

### Commuter Connections Website Update

The flash on the Commuter Connections website was updated to include images from the spring umbrella campaign providing a uniform presence for the campaign.

### GRH Rewards

Sponsorship outreach continued in the second half of FY11 for corporate sponsors for Guaranteed Ride Home rewards coupons. Distribution of coupons from Flippin' Pizza and Madame Tussauds started in April. In exchange for their contribution, sponsors are acknowledged on Commuter Connections corporate page on the web site. GRH customers are provided with the coupons upon re-registration.

## Commuter Connections Newsletter and Federal ETC Insert

Winter and spring editions of *Commuter Connections*, with an insert for federal Employee Transportation Coordinators, were produced during the second half of FY2011. The six page 4-color newsletter is distributed to approximately 5,000 employers and mailed quarterly. It is also placed in .pdf format on the Commuter Connections web site. Newsletters are also sent to federal agencies via GSA along with a special Federal ETC Insert. A .pdf of the insert is also placed online at [www.federaletc.org](http://www.federaletc.org).

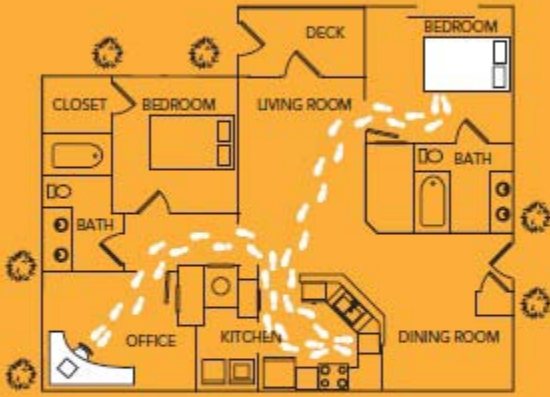

## Print Ads

### Telework Exchange

To promote teleworking, a quarter page ad appeared in the Telework Exchange's Spring Town Hall meeting program booklet. The event was held on April 28, 2011.

**YOUR EMPLOYEE'S NEW COMMUTE.**  
They'll even have time to stop for coffee.

**TELEWORKING WORKS.** Inspire your employees to explore their telework options. Telework offers time savings and decreased stress levels, leading to more job productivity and a better quality of life!

## Earned Media

The primary focus of the earned media effort in the second half of FY2011 was promotion of Bike to Work Day. A total of 112 earned media placements was generated for Bike to Work Day in 2011. Significant in the 2011 earned media effort were the following:

1. An early-on press release to announce registration supported an early uptick in registration.
2. Outreach to the Associated Press resulted in local and national placement of the press release, including placement in The Washington Post's "National News" section, as well as in newspapers in several states from Connecticut to Texas, environmental websites and social media.
3. Previous years focused primarily on encouraging media coverage at the event; this year, the earned media plan focused on building interest in addition to pressing for live coverage at the event. As a result, a four-minute segment aired on Fox News, featuring MWCOG's Bike-Ped Coordinator, and a "Commuter Connections" banner. The segment was supplemented with a feature on the Fox TV website, with the full press release and BTWD tips.

4. Blogs figured prominently, with the media writing blog entries based on press releases, as well as individual bloggers on the environment, cycling or about life in the DC area. A search of blogs from March 3, 2011 to May 26, 2011 produced 4690 results for Bike to Work Day + DC.

The schedule of information distributed to the media began in March, 2011, with a calendar listing followed by three press releases ahead of the event and one immediately following the event.

**Appendix C** contains a listing of Bike to Work Day 2011 media placements across print, Internet, radio and television, along with a selection of major blog placements.
